SCE and PRIME
JOINT RATE COMPARISONS

As part of our mutual commitment to better serve customers, Southern California Edison (SCE) and Pico Rivera Municipal Energy (PRIME) have jointly created a comparison of our common electric rates, average monthly charges, and generation portfolio contents. To find your specific electric rate, please scroll down. The following rates are current as of 6/1/2018.

Definitions

Generation Rate reflects the cost of producing or purchasing electricity to power your home. This rate will vary depending on your service provider and rate plan.

SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.

Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS is a surcharge to recover costs associated with power purchases made on behalf of customers, prior to a customer's switch to a CCA. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.

Domestic, D-Care, TOU-GS-1-A, TOU-GS-1-B, TOU-GS-2-A, TOU-GS-2-B, OL-1, and TC-1 comparisons are calculated using average electricity usage for a typical customer within the jurisdiction of the City of Pico Rivera. All other comparisons are calculated using average electricity usage for a typical customer within SCE's service territory.This comparison is based on billed usage from June 1, 2016 to May 31, 2017. These calculations are based on SCE's published rates as of June 1, 2018 and PRIME's published rates as of April 1, 2018.

Residential

Domestic / D	SCE	SCE Green Rate (50% Renewable)	SCE Green Rate (100% Renewable)	PRIME Power (50% Renewable)	PRIME Future (100% Renewable)
