**Question 14:**

- a) Has SCE increased its workforce dedicated to asset maintenance since 2023?
- b) If yes, how many employees or contractors did SCE hire in 2023 for asset maintenance?
- c) If yes, how many employees or contractors did SCE hire in Q1 of 2024 for asset maintenance?

**Response to Question 14:**

*a) Has SCE increased its workforce dedicated to asset maintenance since 2023?*

SCE's transmission organization has maintained generally level staffing for its asset maintenance programs throughout 2023-2024. SCE's Distribution organization has moderately increased its field crews, while its office support has been slightly lowered.

*b) If yes, how many employees or contractors did SCE hire in 2023 for asset maintenance?*

SCE does not hire specifically for "asset maintenance" but instead for the more general needs of electrical utility field work. Individuals are hired and put onto field crews as needed throughout the year.

*c) If yes, how many employees or contractors did SCE hire in Q1 of 2024 for asset maintenance?*

See above.
