SOUTHERN CALIFORNIA EDISON COMPANY'S

REQUEST TO INCREASE RATES FOR CHARGE READY 2 INFRASTRUCTURE AND MARKET EDUCATION PROGRAMS

A.18-06-015

Summary

On June 26, 2018, Southern California Edison Company (SCE) filed Application (A.) 18-06-015 with the California Public Utilities Commission (CPUC) requesting approval to increase rates for Phase 2 of its Charge Ready Infrastructure and Market Education Programs (Charge Ready 2). SCE is seeking to recover a total of \$760.1 million for costs associated with the Charge Ready 2 program, beginning in November 2019. If approved, Charge Ready 2 will expand on the programs approved in SCE's Charge Ready Pilot¹ by providing support for an additional 48,000 charge ports over a four-year program, while implementing new and innovative marketing, education, and outreach components. Charge Ready 2 supports and accelerates electric vehicle (EV) adoption consistent with California's efforts to reduce greenhouse gas (GHG) emissions by 2030.

Charge Ready 2 focuses on the continued deployment of electric vehicle infrastructure programs throughout SCE's service territory. This application will also focus on the development of marketing, education and outreach regarding electric vehicles and their benefits.

Rate Impact Of SCE's Application

If the CPUC approves SCE's application as proposed, an average non-CARE residential customer using 550 kWh per month could see a monthly bill increase of \$0.84, from a current monthly bill of \$111.26 to \$112.10. The following table compares SCE's current bundled average rates, by customer group, to proposed bundled average rates in 2018 if SCE's application is approved by the CPUC:

¹ The CPUC authorized SCE's Charge Ready Pilot in D.16-01-023.
