SOUTHERN CALIFORNIA EDISON COMPANY (SCE)

NOTICE OF JOINT APPLICATION OF SOUTHERN CALIFORNIA EDISON COMPANY, PACIFIC GAS & ELECTRIC COMPANY AND SAN DIEGO GAS & ELECTRIC COMPANY FOR RECOVERY OF COSTS OF THE MARKET REDESIGN AND TECHNOLOGY UPGRADE (MRTU) INITIATIVE (A.12-01-014)

On January 31, 2012, Southern California Edison Company (SCE), Pacific Gas & Electric (PG&E) and San Diego Gas & Electric (SDG&E) filed a joint application with the California Public Utilities Commission (CPUC), each seeking authority to recover their respective costs associated with their own separate Market Redesign and Technology Upgrade (MRTU) memorandum account, for the Record Period January 1, 2010 through December 31, 2010. SCE initially requested recovery for its MRTU memorandum account for this Record Period in SCE's 2011 Energy Resource Recovery Account (ERRA) Application No. 11-04-001. However, pursuant to the CPUC's August 12, 2011 Ruling in Application No. 11-04-001, SCE is making its request through a different, joint application.

Pursuant to Resolution E-4087, the CPUC authorized the establishment of SCE's MRTU memorandum account to record SCE's incremental capital-related revenue requirement as well as incremental operations and maintenance (O&M) expenses associated with implementing the California Independent System Operator's (CAISO) MRTU initiative. This application requests authorization for SCE to recover \$17.345 million in actual, incremental costs associated with the undercollection in the MRTU memorandum account (including franchise fees and uncollectibles). These costs were incurred in 2010 to implement the CAISO MRTU initiative.

Compared to revenue at present rates as of January 1, 2012, this application could result in a revenue increase of approximately \$17.345 million, or .16% beginning in 2013. **If total rates were to change as requested, an average residential customer using 600 kilowatt-hours (kWh) per month would see an increase of \$.28 per month, from \$104.92 to \$105.20.** The following table shows an estimate of proposed revenue and rate changes by customer group:

If approved, the proposed change in rates for each customer class is as follows:

	Revenue Change (\$Millions)	% Change	Present Rates (¢/kWh)	Proposed Rate (¢/kWh)
Residential	6,990	0.15%	15.87	15.89
Lighting – Small and Medium Power	6,099	0.16%	15.08	15.10
Large Power	3,607	0.20%	10.03	10.05
Agricultural and Pumping	552	0.16%	11.50	11.52
Street and Area Lighting	96	0.07%	18.03	18.04
Total	17,345	0.16%	14.12	14.14

EVIDENTIARY HEARINGS

If the application is accepted, the CPUC may also hold evidentiary hearings whereby formal parties of record provide testimony and are subject to cross-examination before a CPUC Administrative Law Judge (ALJ). These hearings are open to the public, but only those who are formal parties of record may participate. For information relating to the hearings, you may contact the Public Advisor's Office (PAO) at the address or phone number shown below. A separate notification to SCE customers regarding the date, time and location of these hearings will be sent as a separate bill insert, or will appear as a newspaper notification.

The CPUC has its own court reporters who will record the comments of those formal parties of record participating in the evidentiary hearings. After considering all proposals and evidence presented during the formal hearing process, the assigned ALJ will issue a proposed decision. When the CPUC issues a final decision on the application, it may adopt, amend, or modify all or part of the ALJ's proposed decision as written. The CPUC's decision may be different than SCE's request.

The Division of Ratepayer Advocates (DRA) is an independent arm of the CPUC, created by the Legislature to represent the interests of all utility customers throughout the state to obtain the lowest possible rates for service consistent with reliable and safe service levels. DRA has a multi-disciplinary staff with expertise in economics, finance, accounting, and engineering.
