DATA REQUEST SET A b r a m s - S C E - 0 0 1

To: Abrams
Prepared by: Thomas Brady
Job Title: Senior Advisor
Received Date: 3/5/2019

Response Date: 3/7/2019

Question 18: Provide all contracts and SLAs associated with Geostationary Operational Environmental Satellite (GOES) contractors/vendors under contract in part or throughout all years 2015-2019. Please, provide all correspondences with these contractors. Please, provide all correspondences related to these topics with insurers and reinsurers during this same time period.

Response to Question 18:

SCE objects to the question on the grounds that it is overbroad, unduly burdensome, and beyond the scope of this proceeding (which is scoped to examine SCE's 2019 Wildfire Management Plan and not historical data from 2015). Notwithstanding this objection, SCE responds as follows.

SCE does not currently have any satellite GOES contracts. However, SCE does use several public websites to view GOES 16 and 17 data. These sites are listed below. SCE uses this satellite information for many purposes including lightning and hot spot detection. SCE is considering remote sensing capabilities.

Public websites for GOES satellite data:
