NOTICE OF SOUTHERN CALIFORNIA EDISON COMPANY'S REQUEST TO ALTER ELECTRIC RATES FOR 2016 ENERGY RESOURCE RECOVERY ACCOUNT (ERRA) APPLICATION A.15-05-007

On May 1, 2015, Southern California Edison Company (SCE) filed an application with the California Public Utilities Commission (CPUC) to alter rates to purchase electricity for its customers. This application is referred to as SCE's 2016 Energy Resource Recovery Account (ERRA) Forecast application (application). The CPUC has established the ERRA forecast application as the process for review and approval of SCE's estimate of the costs of fuel that it will need to generate electricity. The ERRA also covers the estimated costs of additional power it purchases for its customers, for the following year. This information is provided to the CPUC for the purpose of determining SCE's rates related to the purchase of fuel and purchased power.

In addition to estimating the 2016 fuel and purchased power costs, this ERRA forecast application includes:

- (1) A request to approve other expenses recoverable in ERRA proceedings, such as expenses related to spent nuclear fuel (stored nuclear fuel that is no longer useful); and
- (2) A request to approve SCE's 2016 forecast of Greenhouse Gas (GHG)-related costs. This includes GHG allowance revenue and revenue returns to eligible customers.

The total forecast for SCE's proposed revenue requirement relating to this application, is \$4.067 billion for 2016. This request represents a decrease of \$1.006 billion from SCE's current 2014 ERRA-related revenue requirement, or an 8.44% system average rate decrease. SCE has proposed to not implement a pending ERRA rate increase for 2015. The decrease proposed in this application will result in a reduction to customer rates of approximately 1.41 cents per kilowatt-hour as compared to current rates.

The following table compares the current 2014 ERRA rates to the forecast 2016 ERRA rates:

***Customer Group Revenue Impact
2016 ERRA Forecast Application Compared to
Current ERRA Rates***

Customer Group	System			Bundled	
	Current Revenues (\$000)	Revenues Change (\$000)	% Change	Current Rates (¢/kWh)	Proposed Rates (¢/kWh)
Residential	5,022,207	-440,002	-8.76%	17.29	15.77
Lighting - Small and Medium Power	4,625,971	-357,465	-7.73%	17.69	16.26
Large Power	2,086,665	-192,898	-9.24%	12.51	11.25
Agricultural and Pumping	408,705	-34,683	-8.49%	14.22	13.01
Street and Area Lighting	135,686	-6,120	-4.51%	18.53	17.69
Standby	271,138	-28,320	-10.44%	10.52	9.36
Total	12,550,372	-1,059,488	-8.44%	16.19	14.78

If SCE's proposed ERRA rate change is approved, an average non-CARE residential electric customer would see a bill decrease of \$8.20 per month, from \$102.99 to \$94.79.

This Application is a forecast and is likely to change prior to including these costs in next year's electric rates. Consistent with past ERRA Forecast applications, SCE expects to update this Application in November 2015, so that the latest forecast assumptions can be incorporated into SCE's 2016 rates.

FOR FURTHER INFORMATION FROM SCE

You may review a copy of this Application and related exhibits at SCE's corporate headquarters (2244 Walnut Grove Avenue, Rosemead, CA 91770). You may also view these materials at the following SCE business offices:

Attention: Law Dept - Case Administration

CPUC PROCESS

The CPUC will evaluate and determine the ERRA forecast through its administrative law process where the proceeding is assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents necessary for the CPUC to establish a record upon which to base its decision. Evidentiary Hearings (EHs) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate.

After considering all proposals and evidence presented during the formal hearing process, the assigned Judge will issue a proposed decision, which may adopt SCE's proposals, modify them, or deny them. Any CPUC Commissioner may also sponsor an alternate decision. The proposed decision, and any alternate decision(s), will be discussed and voted upon at a scheduled CPUC Voting Meeting.

As a party of record, the Office of Ratepayer Advocates (ORA) will review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. Other parties of record may also participate in the CPUC's proceeding to consider this application. For more information about ORA, please call (415) 703-1584, e-mail ora@cpuc.ca.gov or visit ORA's website at <http://ora.ca.gov/default.aspx>.

STAY INFORMED

If you would like to follow this proceeding, or any other issue before the CPUC, you may use the CPUC's free subscription service. Sign up at: <http://subscribecpuc.cpuc.ca.gov/>.

If you would like to learn how you can participate in this proceeding, or if you have informal comments or questions about the CPUC processes, you may access the CPUC's Public Advisor's Office (PAO) webpage at www.cpuc.ca.gov/puc and click on "Public Advisor" from the CPUC Information Menu. You may also contact the PAO as follows:
