LOGIN

In your web browser, type **www3.sce.com/sscc/qf/qf.nsf** in the Address field and press **Enter**. The QF Outage Scheduling System homepage will be displayed as follows:

(For best viewing experience, be sure to set your monitor resolution at 1024 by 768 or higher.)

Click on **Login** to go to the login page.

Enter your QFID and passcode. Please note that the passcode is case-sensitive. Click on the **Submit** button to login.

OUTAGE SUMMARY

After login, you will see the Outage Summary page. Your outage records are organized in 3 “folders.” They are **Currently Scheduled**, **Historical**, and **Inactive**.

The **Currently Scheduled** folder lists outages that have yet to take place, or are currently under way.

SCHEDULING AN OUTAGE

While in the **Currently Scheduled** folder, click on **Schedule Outage**.

The screenshot shows the 'QF-Outage System' interface. At the top left is the Southern California Edison logo. The main header is 'QF-Outage System' with 'QFID: 0002' on the right. Below the header is a navigation bar with 'Aug 28, 2006' and 'QF Outage Summary'. A sidebar on the left contains 'QF Outage System', 'OUTAGE SUMMARY', 'QF', 'Currently Scheduled', 'Historical', 'Inactive', and 'Logout'. The main content area shows 'No documents found'. A red arrow points to the 'Schedule Outage' button with the text 'Click to schedule new outage'.

Fill in all required information, including reason for the outage, then click on the **Submit** button.

The screenshot shows the 'Schedule Outage' form. At the top left is the Southern California Edison logo. The main header is 'Schedule Outage' with 'Current user: 0002' on the right. Below the header is a navigation bar with 'Aug 28, 2006' and 'QFID: 0002'. The form contains the following fields and annotations:

- QFID:** 0002
- QF Name:** Test QF - Firm Maint 1 Unit
- Notification Date/Time:** 08/28/2006 15:00 (rounded to the nearest hour)
- Outage ID:** -
- Outage Information:**
 - Start Date/Time *:** Includes a calendar icon. Annotation: 'Click to display calendar'.
 - End Date/Time *:** Includes a calendar icon.
 - Reason for Outage *:** Other (dropdown menu).
 - Specify the Reason *:** Text area.
 - Estimated Capacity Output Level *:** Input field with 'kw' unit. Annotation: 'Capacity available during outage period'.
- Capacity Credit Information:**
 - Copy Outage Start & End to Capacity Credit Start & End:** 'same as outage' (checkbox).
 - Credit Type *:** Dropdown menu.
 - Start Date/Time *:** Includes a calendar icon.
 - End Date/Time *:** Includes a calendar icon.
- Buttons:**
 - Submit:** Annotation: 'Submit outage data'.
 - Clear All:** Annotation: 'Clear all fields and start over'.
 - Abort:** Annotation: 'Abort the transaction and return to Outage Summary'.

A confirmation page is displayed.

REVISING AN EXISTING OUTAGE

You can revise and update certain information for an outage listed in the **Currently Scheduled** folder. An outage can be rescheduled, extended, or canceled, and its capacity output level can be updated as well.

To revise an existing outage, place a **check mark** before the outage record, and then click on one of the 4 links - **Reschedule Outage**, **Extend Outage**, **Cancel Outage**, and **Add/Update Capacity Level** near the top of the Summary page:

Capacity Credit Information
(form firm capacity payment calculation only)

	Capacity Credit Type:
Start Date:	09/11/2006 08:00 Maintenance Credit
End Date:	09/20/2006 12:00

This page is only a confirmation of receipt and does not necessarily constitute an approval of the request for maintenance credit, if any. Information contained on this page is confidential and proprietary to Southern California Edison and the generation supplier as indicated on this page. If you are not the intended recipient of this information, you are not authorized to read, forward, print, retain, copy, or disseminate it or any part of it. If you have received this information in error, please notify Southern California Edison immediately.

SEARCH

To find an outage by its Outage ID, click on **Search Outage** in the Outage Summary.

The screenshot shows the 'QF-Outage System' interface. At the top left is the Southern California Edison logo. The main header is 'QF-Outage System' with 'QFID: 0002' on the right. Below the header is 'Aug 28, 2006' and 'QF Outage Summary'. A navigation menu on the left includes 'QF Outage System', 'OUTAGE SUMMARY', 'QF', 'Currently Scheduled', 'Historical', 'Inactive', and 'Logout'. In the top right, there are three buttons: 'Schedule Outage', 'Reschedule Outage', and 'Extend Outage'. Below these are 'Cancel Outage', 'Add/Update Capacity level', and 'Search Outage'. The 'Search Outage' button is circled in red. Below the buttons is a table with one row of data:

Outage #	Notification Date/Time	Outage Start	Outage End	Cap. Output (% of Normal)	Cap. Credit Start	Cap. Credit End	Cap. Credit Type	Unit #
<input type="checkbox"/> 16891	08/28/2006 15:00	09/05/2006	09/09/2006	0	09/05/2006	09/09/2006	Maintenance Credi...	-

After entering the Outage ID of the outage record you wish to find, click on the **Search** button.

This screenshot shows the same interface as the previous one, but with the search process initiated. A search bar is visible with the text '16800' entered. A 'Search' button is next to the search bar. Below the search bar is a table with one row of data:

Outage #	Notification Date/Time	Outage Start	Outage End	Cap. Output (% of Normal)	Cap. Credit Start	Cap. Credit End	Cap. Credit Type	Unit #
<input type="checkbox"/> 16891	08/28/2006 15:00	09/05/2006	09/09/2006	0	09/05/2006	09/09/2006	Maintenance Credi...	-

NOTE: When you are in the **Currently Scheduled** folder, you can search only the current outage records. To find an outage in another folder (**Historical** or **Inactive**), you must click on that folder first before performing the search.
