The Energy Savings Assistance Program — Easy as 1-2-3

Step 1: Qualification and Assessment

To be eligible, you must meet specific household income guidelines. After income qualification, our approved contractor will do a walk-through of your home to collect information to help us determine the potential for installation of one or more appliances or services.

Step 2: Service Delivery

Our approved contractors will install the appliances and may provide services such as weatherization.

Step 3: Inspection

We may perform an inspection in your home to make sure our approved contractor completed the work according to our quality standards. If the work was not done properly, it will be redone at no cost to you.

*The Energy Savings Assistance Program is funded by California utility ratepayers and administered by Southern California Edison under the auspices of the California Public Utilities Commission. Program and services are available to customers who meet specific household income guidelines or who participate in certain Public Assistance Programs. Services may not be available in all areas. Certain restrictions, such as age, size, and condition of the system or appliance to be replaced, may apply. All replacement refrigerators meet ENERGY STAR[®] standards and are top-freezer models without extra features, such as ice makers. Services are offered on a first-come, first-served basis until funding is expended or the program is discontinued. A copayment may be required for some services. Program may be modified or terminated without prior notice. California consumers are not obligated to purchase any full fee service or other service not funded by this program. This program is available to both homeowners and renters who meet qualifications. Renters may be required to obtain the property owner's written permission before services are delivered.
