WP Material Accounting Changes

List of Material Accounting Changes

“Material Accounting Changes” shall mean any material change that affects the WOD Formula Rate as follows: (i) accounting policies and practices from those in effect for the Prior Year upon which the immediately preceding Annual Update was based, including those resulting from any new or revised accounting guidance from the Financial Accounting Standards Board; or (ii) internal corporate cost allocation policies or practices in effect for the Prior Year upon which the immediately preceding Annual Update was based; or (iii) income tax elections from those in effect for the Prior Year upon which the immediately preceding Annual Update was based; or (iv) cost allocation policies between EIX, SCE, and subsidiaries of either, from those in effect for the Prior Year upon which the immediately preceding Annual Update was based. Additionally, a Material Accounting Change shall also include any: (i) initial implementation of an accounting standard; or (ii) initial implementation of accounting practices for unusual or unconventional items where the Commission has not provided specific accounting direction.

1. In July 2021, Morongo Transmission LLC paid SCE \$400 million for the use of a portion of the West of Devers transmission line transfer capability. Under the agreement with Morongo, SCE will provide Morongo with the use of a portion of the WOD transmission line transfer capability for a period of 30 years. SCE will amortize deferred revenues from the use of the transfer capability over the 30-year term. The depreciation of the transmission line is also amortized over the same period on a straight-line basis. FERC also approved SCE's requested accounting waiver of the Commission's USofA on the use of Account 566 to record the amounts received from Morongo Transmission on a limited basis until December 31, 2021 (Docket Nos. ER21-1280-000 and ER21-1280-001). Starting in 2022, SCE will report the amounts received from Morongo Transmission in the corresponding native accounts consistent with Docket ER22-166.

Notes:

- In 2021 SCE reserved an additional reserve expense related to the "Thomas/Woolsey/Montecito" events of \$1.090 billion. The A&G expense impact on the Prior Year Cost is the amount of the reserve times the Morongo WOD Labor Allocation Factor.
- The Cash Working Capital impact on the Prior Year Cost is calculated as 1/8 of the Direct A&G Impact times the Capital Carrying Charge.
- The Cost Adjustment is the negative of the cost impact on the Prior Year Cost for expenses incurred in the Prior Year.
