NOTICE OF SOUTHERN CALIFORNIA EDISON COMPANY'S REQUEST TO INCREASE RATES FOR THE 2019 ENERGY RESOURCE RECOVERY ACCOUNT REVIEW APPLICATION A.20-04-002

Summary

On April 1, 2020, Southern California Edison Company (SCE) filed its Energy Resource Recovery Account (ERRA) Review Application (A.20-04-002) with the California Public Utilities Commission (CPUC).

In 2019, three authorized SCE memorandum and/or balancing accounts had an under-collection of funds than were necessary to cover costs. As a result, SCE is requesting a net revenue increase of \$16.065 million. If the CPUC approves this application, customers' rates will increase by approximately \$0.17 average increase per month.

How could this affect my monthly bill?

If SCE's proposed rate increase is approved, an average residential electric customer using 550kWh per month would see a bill increase an average of \$0.17 per month, from \$114.20 to \$114.37. The impacts will be less for lower-income residential customers enrolled in the California Alternate Rates for Energy (CARE) program: \$0.11 per month, from \$77.18 to \$77.29. The following table shows current rates compared to the proposed rate changes by customer group.

| Bundled Average Rates (¢/kWh) | | | | |
|--------------------------------------|------------------------------|----------------------------------|-------------------------------|-------------------|
| Customer Group | Current Rates (¢/kWh) | Proposed Increase (¢/kWh) | Proposed Rates (¢/kWh) | % Increase |

How does the rest of the process work?

This application will be assigned to a judge who will determine how to receive evidence and other related documents necessary for the CPUC to establish a record upon which to base its decision. Public comments will enter the formal record. Evidentiary Hearings (EH) may be held where parties of record will present their testimony and may be subject to cross-examination by other parties. These EHs are open to the public, but only those who are parties of record can participate.

After considering all proposals and evidence presented during the formal hearing processes, the assigned judge will issue a proposed decision which may adopt SCE's application as proposed, modify, or deny it. Any CPUC Commissioner may sponsor an alternate decision. The proposed decision, and any alternate decisions, will be discussed and voted upon at a CPUC Voting Meeting.

The Public Advocates Office (Cal Advocates) is reviewing this application. Cal Advocates is the independent consumer advocate within the CPUC with a statutory mandate to represent customers of investor-owned utilities to obtain the lowest possible rate for service consistent with safe and reliable service and the state's environmental policy goals. Cal Advocates has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering.
