

Enrolling in SCE's Commercial Summer Discount Plan can provide you with as much as \$240 in savings during the summer season for each of your air conditioning units, based on a typical 5-ton central air conditioning unit. Savings could increase with larger units and decrease with smaller ones. Net Energy Metering (NEM) credits received under Schedule NEM may offset in whole or in part the program credits associated with the Summer Discount Plan.

For more information, please go to www.sce.com/drp or call us at **800-990-7788 (TTY 800-352-8580)**.

How the plan works:

Once you sign up and choose a plan option, SCE will install (at no cost to you) a device on your existing central air conditioner(s). Then, when California experiences peak electrical demands, we will automatically turn off or cycle your air conditioner(s) for up to 6 hours per day or per interruption, depending on the plan you choose. Your fan will still run, though, to allow air to continuously circulate in your place of business. Your savings will appear as a credit on your summer electric bill. Once you sign up, you'll save automatically every summer, year after year.

When to enroll:

To enjoy the maximum savings, you must be enrolled in the plan from June 1 to October 1. If you enroll after June 1, your savings will be prorated beginning from the first meter read date after a device has been installed on your air conditioning unit and you've been placed on the Summer Discount Plan rate.

Where to mail your completed form:

Southern California Edison, Summer Discount Plan
P.O. Box 800
Rosemead, CA 91770

How many central air conditioners would you like cycling devices installed on? (check one of the boxes)			
<input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> Other _____			

3. Choose one of the plan options below

To be enrolled in the Commercial Summer Discount Plan, **you must check one of the following plan options.** Please note that if you have a closed air circulation system, the Maximum Savings plan option may compromise your air quality and impact your ability to meet California air quality standards.

Plan option	Conditions	Credits for customers on rate schedule GS-1 or TOU GS-1	Credits for customers on rate schedule GS-2, TOU GS-3 or TOU-8
<input type="checkbox"/> Maximum Savings Enhanced	A/C compressor off continuously for up to 6 hours per day (unlimited interruptions during the summer season)	\$0.400 per calculated ton per day	\$12.00 per calculated ton per month
<input type="checkbox"/> Maximum Savings Base	A/C compressor off continuously for up to 6 hours per interruption (up to 15 interruptions during the summer season)	\$0.200 per calculated ton per day	\$6.00 per calculated ton per month
<input type="checkbox"/> Good Value Enhanced	A/C compressor off 15 out of every 30 minutes for up to 6 hours per day (unlimited interruptions during the summer season)	\$0.140 per calculated ton per day	\$4.20 per calculated ton per month
<input type="checkbox"/> Good Value Base	A/C compressor off 15 out of every 30 minutes for up to 6 hours per interruption (up to 15 interruptions during the summer season)	\$0.070 per calculated ton per day	\$2.10 per calculated ton per month
<input type="checkbox"/> Maximum Comfort Enhanced	A/C compressor off 9 out of every 30 minutes for up to 6 hours per day (unlimited interruptions during the summer season)	\$0.028 per calculated ton per day	\$0.84 per calculated ton per month
<input type="checkbox"/> Maximum Comfort Base	A/C compressor off 9 out of every 30 minutes for up to 6 hours per interruption (up to 15 interruptions during the summer season)	\$0.014 per calculated ton per day	\$0.42 per calculated ton per month

4. Please read and sign below (If you are a lessee, your property owner or manager must also sign below.)

By submitting this application, I confirm that the above information to the best of my knowledge is correct, that I am a Southern California Edison customer with a central air conditioner in good working order, and I would like to enroll in the Commercial Summer Discount Plan indicated in Section 3.

I understand:

- I will provide SCE or its authorized contractors with reasonable access to my place of business to install, monitor and maintain the Commercial Summer Discount Plan devices,
- my credits are based on my current rate schedule, the amount of my electrical consumption, the calculated tonnage of my working central air conditioner, the number of summer season days in each billing period, and my Summer Discount Plan option,
- the Commercial Summer Discount Plan devices will not be installed on a non-operational central air conditioner,
- the actual calculated tonnage on air conditioners may be different than the tonnage displayed on the face plate of the unit,
- the program is subject to the availability of devices and adequate signal strength at my location,
- the California Public Utilities Commission has authorized this program, and this agreement will at all times be subject to such changes or modifications by the California Public Utilities Commission as it may direct, from time to time, in the exercise of its jurisdiction,
- SCE can apply to the California Public Utilities Commission at any time to change its rates, charges, rules or services in any way,
- SCE treats information and research data from individual customers as confidential, and uses statistics and information gathered on a group basis only,
- **the Commercial Summer Discount Plan requires a minimum of one year participation from the date my service on the plan begins, and**
- **this plan is not recommended for anyone unable to tolerate high temperatures or who has significant health problems such as asthma, heart disease or respiratory conditions.**
