ADVICE 143-G
(U 338-E)

PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA
ENERGY DIVISION

SUBJECT: Increase In Santa Catalina Island Gas Costs Adjustment
Billing Factors

Southern California Edison Company (SCE) hereby transmits for filing the following changes to its gas tariff schedules applicable to Santa Catalina Island. The revised tariff sheets are listed on Attachment A and are attached hereto.

PURPOSE

This advice filing revises SCE's gas tariffs to reflect an increase in the Santa Catalina Island Gas Cost Adjustment Billing Factors (GCABFs) due to an increase in recorded and forecast cost of gas. The revised GCABFs are calculated in accordance with the procedures set forth in the Preliminary Statement, Part F, Santa Catalina Island Gas Cost Adjustment Clause (GCAC), of SCE's gas tariffs as authorized in California Public Utilities Commission (Commission) Decision (D.) 82-04-010.

INFORMATION

In D.82-04-010, Ordering Paragraph 2, the Commission authorized SCE to submit GCAC filings by advice letter for every six-month period with March 1 and September 1 as the regularly scheduled revision dates. SCE's GCABFs were last revised effective March 1, 2007, as filed in Advice 138-G, dated January 19, 2007.

The GCABFs established herein are based on the total GCAC revenue requirement which reflects: 1) gas expense for the Forecast Period of September 1, 2007 through August 31, 2008 and 2) amortization of the estimated September 1, 2007 balance in the GCAC balancing account over the Forecast Period. Table 1 (attached) sets forth the calculation of the GCAC balancing account revenue requirement and the fuel revenue requirement.

SCE's current and revised GCABFs for Santa Catalina Island are listed below:

	<u>Current \$/Therm</u>	<u>Revised \$/Therm</u>
Domestic Baseline Service	1.81721	1.88338
Domestic Nonbaseline Service	1.82619	1.90226
Other Than Domestic Service	2.21307	2.29883

This advice filing allocates the revenue increase to Domestic and General Service customers on a System Average Percentage Change (SAPC) basis. This is consistent with the allocation adopted by the Commission in SCE's previous GCAC filings.

The increase in annualized revenues resulting from these changes in rates, based on the therms estimated to be sold during the Forecast Period, is as follows:

	Revised Revenue Change From Present Rates		
<u>Rate Schedule</u>	<u>Therms</u>	<u>\$ Thousands</u>	<u>%</u>
Domestic	284,800	19.8	2.3
General Service	367,200	31.5	2.3
TOTAL	652,000	51.3	2.3

Ordering Paragraph 5 of D.82-04-010 requires SCE to show the method used to calculate the transportation charges for delivery of propane to Santa Catalina Island. SCE does not calculate this charge. All propane is purchased from the supplier freight on board (FOB) Santa Catalina Island, and as such, the transportation charge is included in the total cost of the propane. Table II (attached) sets forth the historical quantity and cost of propane to SCE for the 12-months ended June 2007, which includes transportation charges. The average price of propane is also shown by month, and for the 12-month period.

Section 8 of Part F in the Preliminary Statement of SCE's tariffs is also revised to reflect the GCABFs set forth on the applicable rate schedules in this advice filing.

This advice filing results in a price increase, but does not result in a withdrawal of service, or more restrictive conditions.

TIER DESIGNATION

Pursuant to Decision 07-01-024, Appendix B, Energy Industry Rule 5.1(3), SCE believes this advice letter is subject to Energy Division disposition and should be classified as Tier 1 (effective pending disposition).

EFFECTIVE DATE

This rate change is requested to be effective for service rendered on and after September 1, 2007, pursuant to D.82-04-010.

NOTICE

Anyone wishing to protest this advice filing may do so by letter via U.S. Mail, facsimile, or electronically, any of which must be received no later than 20 days after the date of this advice filing. Protests should be mailed to:
