**ADVICE 2167-E /144-G
(U 338-E)**

PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA
ENERGY DIVISION

SUBJECT: **Communication of Southern California Edison Company's
Tariff Sheet Numbering System Pursuant to Decision 07-01-024
and General Rule 8.4.3**

PURPOSE

In compliance with Decision (D.) 07-01-024 and General Rule 8.4.3 of General Order (GO) 96-B, Southern California Edison Company (SCE) hereby notifies the California Public Utilities Commission (Commission), of SCE's intent to continue to use its existing tariff sheet numbering system for its electric and gas tariff sheets.

BACKGROUND

D.07-01-024, dated January 25, 2007, is the Fourth Interim Decision in Rulemaking (R.) 98-07-038 - Rulemaking for the Purpose of Revising GO 96-A Regarding Informal Filings at the Commission. Moreover, D.07-01-024 governs utility tariffs (including their form, content, and publication) and the advice letters by which they are amended. In concert with the Commission's General Rules previously adopted in its three interim decisions and the General and Industry Rules of D.07-01-024, a complete, comprehensive GO 96-B is codified and supersedes GO 96-A in its entirety.

Appendix A of D.07-01-024, serves as the General Rules for GO 96-B.¹ General Rule 8.4.3, Transitional Provisions, provides that utilities shall specify within 90 days of July 1, 2007, whether they elect to continue the tariff sheet numbering system already utilized by the utility or whether the utility elects to conform its sheet numbering system to the requirements of General Rule 8.4.2. Furthermore, in the event a utility elects to continue its existing sheet numbering system, General Rule 8.4.3 specifies that the

¹ Industry Rules (i.e., electric and gas) are set forth in Appendices B and C of D.07-01-024.

sheet numbering system must remain in compliance with the sheet numbering specifications set forth in the last effective version of GO 96-A.

SCE hereby notifies the Commission's Energy Division that it elects to continue the use of its existing sheet numbering system and acknowledges its existing sheet numbering system remains in compliance with the sheet numbering specifications as set forth in the last effective version of GO 96-A. Furthermore, as directed in General Rule 8.4.3, SCE will maintain its historical tariff record so that it may provide, upon written request and within a reasonable time, the text for any tariff (or portion thereof) no longer in effect.

SCE's existing sheet numbering system can be described as follows:

- All tariff sheets are transmitted via an advice letter.
- SCE utilizes a standard sequential, numerical numbering system for each tariff sheet it submits to the Commission. In this system, the first sheet was designated as Cal. PUC Sheet No. 1-E, followed by Cal. PUC Sheet No. 2-E, etc., over time.
- Each time a tariff sheet is modified and transmitted via an advice letter, the tariff sheet number is revised to the next available, sequential number. This modification not only includes the reference of the new sheet number but also includes a reference to the sheet number just replaced or superseded. This cross-referencing process supports the integrity of SCE's historical tariff sheets.
- A revised table of contents sheet is transmitted with each advice letter.

No cost information is required for this advice filing.

This advice filing will not increase any rate or charge, cause the withdrawal of service, or conflict with any other schedule or rule.

TIER DESIGNATION

Pursuant to D.07-01-024, Energy Industry Rule 5.1(1), this Advice Letter should be classified as Tier 1.

EFFECTIVE DATE

This advice filing will become effective on October 2, 2007, the same day filed.
