ADVICE 1544-E-A
(U 338-E)

PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA
ENERGY DIVISION

SUBJECT: Revision to Schedule NEM, Net Energy Metering, Pursuant
to Resolution E-3764

In compliance with Resolution E-3764, Southern California Edison Company (SCE) hereby submits for filing the following changes to its tariff schedules. The revised tariff sheets are listed on Attachment A and are attached hereto.

PURPOSE

This supplemental advice filing revises SCE's Schedule NEM, Net Energy Metering, in accordance with Resolution E-3764. This advice filing supplements in part Advice 1544-E.

BACKGROUND

On May 21, 2001, SCE filed Advice 1544-E to revise its Net Energy Metering Schedule (Schedule NEM) in order to implement changes required by Assembly Bill (AB) X1 29. As mandated in ABX1 29, Schedule NEM was revised to temporarily expand program eligibility from residential and small commercial customers to include all commercial, industrial, and agricultural customers.¹

The California Public Utilities Commission (Commission), on February 7, 2002, issued Resolution E-3764 to approve, with modifications, SCE's Advice 1544-E. Consistent with Resolution E-3764, SCE further modifies Schedule NEM to clarify that eligible customer-generators taking service under Direct Access may participate in net metering.

¹ The changes mandated by ABX1 29 will remain in effect through December 31, 2002.

No cost information is required for this advice filing.

This advice filing will not increase any rate or charge, cause the withdrawal of service, or conflict with any other schedule or rule.

EFFECTIVE DATE

Pursuant to Resolution E-3764, Ordering Paragraph 1, this advice filing is effective April 11, 2001.²

Schedule NEM
NET ENERGY METERING

Sheet 1

APPLICABILITY

Applicable to Eligible Customer-Generators as defined herein below pursuant to Public Utilities Code Section 2827, with a generating capacity up to 1,000 kW. Customers eligible for service under this schedule are exempt from (1) any new or additional charges not included in their Otherwise Applicable Tariff (OAT), (2) taking service under Schedule S, and (3) paying the Competition Transition Charge (CTC) for their Departing Load served by the electricity generated by the customer's generator. Pursuant to Public Utilities Code Sections 2827.5 and 2827.7, this Schedule will be closed on January 1, 2003 to all Commercial, Industrial and Agricultural customers, and all Residential and Small Commercial customers with a generating capacity greater than 10 kW, not already served under this Schedule.

TERRITORY

Within the entire territory served.

RATES

Charges for Net Energy supplied and/or delivered to the customer shall be billed in accordance with the customer's OAT. Any net generation will be calculated in the same manner as Net Energy supplied, but rather than show as a charge, will appear as a credit on the customer-generator's account. For Residential and Small Commercial Customers (as defined in SCE's Rule 1), the net balance of moneys owed to SCE for net consumption of electricity or credits owed to the customer-generator for net generation of electricity shall be carried forward until the end of the Relevant Period. For all other customer-generators, the net balance of moneys owed shall be billed and payable each monthly billing cycle, except if such customer-generator is a net electricity producer over a billing cycle, any excess kilowatthours generated during the billing cycle shall be carried over to the following billing period, valued in accordance with the customer-generator's OAT and appear as a credit on the customer-generator's account. At the end of the Relevant Period Special Condition 3.b shall apply to any remaining kilowatthours/credits for all customers on this Schedule. Monthly Customer Charges, Minimum Charges, Demand Charges, and/or other non-energy related charges, excluding any adjustments due to power factor provisions or rebates offered under the State of California's 20/20 Program, as defined on the customer's OAT shall apply, when applicable, regardless of the customer's monthly net generation.
