REVENUE & TARIFFS DEPT.

Subject: General Order 131-D, Notice of Proposed Construction – 115 kV Single Circuit Line
in the City of Redlands

Dear Mr. Jazayeri:

Advice Letter 1917-E is effective October 23, 2005. A copy of the advice letter is included herewith for your records.

Sincerely,

A handwritten signature in black ink, appearing to read "Sean H. Gallagher".

Sean H. Gallagher, Director
Energy Division

**ADVICE 1917-E
(U 338-E)**

PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA
ENERGY DIVISION

SUBJECT: Notice of Proposed Construction of Facilities Pursuant to
General Order 131-D, 115 kV Single Circuit Line in the
City of Redlands

Southern California Edison Company (SCE) hereby submits notice pursuant to General Order 131-D (GO 131-D), Section XI, Subsection B.4 of the Construction of Facilities that are exempt from a Permit to Construct. GO 131-D was adopted by the California Public Utilities Commission (Commission) in Decision (D.) 94-06-014 and modified by D.95-08-038.

PURPOSE

This advice filing provides a copy of the Notice of Proposed Construction (Attachment A) and the Notice Distribution List (Attachment B) which comply with the noticing requirements found in GO 131-D, Section XI, Subsections B and C.

BACKGROUND

SCE is proposing to relocate the San Bernardino-Mentone single circuit 115 kV line from its present location, in the existing franchise position along the north side of San Bernardino Avenue, in a northerly direction approximately 14 feet to the new franchise position along San Bernardino Avenue to make way for the widening of San Bernardino Avenue by the City of Redlands. As part of the project, SCE will replace twelve (12) various height wood poles with thirteen (13) various height wood poles using triangle post construction. The existing 12 kV distribution lines which are currently located on the existing 115 kV line poles, will be converted to underground. This project is located on San Bernardino Avenue between Dearborn Street and Wabash Avenue in the City of Redlands. This project is approximately 3373 feet in length.

Pursuant to Commission GO 131-D, Section III.B.1, projects meeting specific conditions are exempt from the Commission's requirement to file for an application requesting authority to construct. This project qualifies for the following exemption:

- “g. power line facilities or substations to be located in an existing franchise, road-widening setback easement, or public utility easement; or in a utility corridor designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies for which a final Negative Declaration or EIR finds no significant unavoidable environmental impacts.”

GO 131-D, Section XI, Subsection B.4 requires that this advice filing be made not less than 30 days before the date such construction is intended to begin. SCE intends to begin construction no sooner than November 7, 2005.

No cost information is required for this advice filing.

This advice filing will not increase any rate or charge, cause the withdrawal of service, or conflict with any other rate schedule or rule.

EFFECTIVE DATE

Because this filing is being made in accordance with the noticing requirements described in GO 131-D, Section XI, Subsection B.4, this advice filing will become effective on the 30th calendar day after the date filed, which is October 23, 2005.

NOTICE

Anyone wishing to protest this advice filing may do so by letter via U.S. Mail, facsimile, or electronically, any of which must be received by the Energy Division and SCE no later than 20 days after the date of this advice filing. Protests should be mailed to:

CPUC, Energy Division
Attention: Tariff Unit
505 Van Ness Avenue
San Francisco, California 94102
E-mail: jjr@cpuc.ca.gov and jnj@cpuc.ca.gov

Copies should also be mailed to the attention of the Director, Energy Division, Room 4004 (same address above).

In addition, protests and all other correspondence regarding this advice letter should also be sent by letter and transmitted via facsimile or electronically to the attention of:

Akbar Jazayeri
Director of Revenue and Tariffs
Southern California Edison Company
2244 Walnut Grove Avenue
Rosemead, California 91770
Facsimile: (626) 302-4829
E-mail: AdviceTariffManager@sce.com

Bruce Foster
Vice President of Regulatory Operations
c/o Karyn Gansecki
Southern California Edison Company
601 Van Ness Avenue, Suite 2040
San Francisco, California 94102
Facsimile: (415) 673-1116
E-mail: Karyn.Gansecki@sce.com

There are no restrictions on who may file a protest, but the protest shall set forth specifically the grounds upon which it is based and shall be submitted expeditiously.

In accordance with Section III, Paragraph G, of General Order No. 96-A, SCE is serving copies of this advice filing to the interested parties shown on the attached GO 96-A service list. Address change requests to the GO 96-A service list should be directed to AdviceTariffManager@sce.com or (626) 302-2930. For changes to any other service list, please contact the Commission's Process Office at (415) 703-2021 or by electronic mail at [Process Office@cpuc.ca.gov](mailto:ProcessOffice@cpuc.ca.gov).

Further, in accordance with Public Utilities Code Section 491, notice to the public is hereby given by filing and keeping the advice filing open for public inspection at SCE's corporate headquarters. To view other SCE advice letters filed with the Commission, log on to SCE's web site at <http://www.sce.com/AboutSCE/Regulatory/adviceletters>.

For questions, please contact Tom Burhenn at (626) 302-9652 or by electronic mail at Thomas.Burhenn@sce.com.

Attachment A

NOTICE OF PROPOSED CONSTRUCTION

Proposed Project: Southern California Edison Company (SCE) proposes to relocate the San Bernardino-Mentone single circuit 115kV line from its present location, in the existing franchise position along the north side of San Bernardino Avenue in a northerly direction approximately 14 feet to the new franchise position along San Bernardino Avenue to make way for the widening of San Bernardino Avenue by the City of Redlands. As part of the project, SCE will replace twelve (12) various height wood poles with thirteen (13) various height wood poles using triangle post construction. The existing 12kV distribution lines which are currently located on the existing 115kV line poles, will be converted to underground. This project is located on San Bernardino Avenue between Dearborn Street and Wabash Avenue in the City of Redlands. This project is approximately 3373 feet in length. Construction will occur between November 7, 2005 and May 28, 2006.

EMF Compliance: The California Public Utilities Commission (CPUC) requires utilities to employ "no cost" and "low cost" measures to reduce public exposure to electric and magnetic fields (EMF). In accordance with SCE's "EMF Design Guidelines for New Electrical Facilities: Transmission Substation and Distribution", filed with the CPUC in compliance with CPUC Decision 93-11-013, SCE will implement the following measure(s) for this project:

1. Triangle post construction will be utilized; and
2. Distribution facilities will be placed underground.

Exemption from CPUC Authority: Pursuant to CPUC General Order 131-D, Section III.B.1, projects meeting specific conditions are exempt from the CPUC's requirement to file for an application requesting authority to construct. This project qualifies for the following exemption:

(g) Power lines facilities or substations to be located in an existing franchise, road-widening setback easement, or public utility easement; or in a utility corridor designated, precisely mapped and officially adopted pursuant to law by federal, state, or local agencies for which a final Negative Declaration or EIR finds no significant unavoidable environmental impacts.

Public Review Process: Persons or groups may protest the proposed construction if they believe that the utility has incorrectly applied for an exemption or believe there is reasonable possibility that the proposed project or cumulative effects or unusual circumstances associated with the project, may adversely impact the environment.

Protests must be filed by October 13, 2005 and should include the following:

1. Your name, mailing address and daytime telephone number.
2. Reference to the CPUC Advice Letter Number and Project Name Identified.
3. A clear description of the reason for the protest.

The letter should also indicate whether you believe that evidentiary hearings are necessary to resolve factual disputes.

Protests for this project must be mailed within 20 calendar days to:

California Public Utilities Commission
Energy Division, Deputy Director
505 Van Ness Avenue, 4th Floor
San Francisco, CA 94102

AND

Southern California Edison Company
Law Department - Exception Mail
2244 Walnut Grove Avenue
Rosemead, CA 91770
Attention: Ms. Y. Louie

SCE must respond within five business days of receipt and serve copies of its response on each protestant and the CPUC. Within 30 days after SCE has submitted its response, the Executive Director of the CPUC will send you a copy of an Executive Resolution granting or denying the request and stating the reasons for the decision.

Assistance in Filing a Protest: For assistance in filing a protest, contact the CPUC's Public Advisor in San Francisco at (415) 703-2074 or in Los Angeles at (213) 576-7057.

Additional Project Information: To obtain further information on the proposed project, please contact: Beverly Powell, Public Affairs, Southern California Edison Company at (909) 307-6742.
