ADVICE 21
(U 6096-C)

PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA
TELECOMMUNICATIONS DIVISION

SUBJECT: Informational Advice Letter
2003 Second Quarter Report of Southern California Edison
Company for Competitive Local Exchange Projects

PURPOSE

In compliance with Decision (D.) 98-12-083, dated December 17, 1998, Southern California Edison Company (SCE) hereby submits for filing the attached 2003 quarterly report summarizing the competitive local exchange construction projects that are anticipated for the second quarter of 2003.

BACKGROUND

In D.98-12-083, the California Public Utilities Commission (Commission) granted a certificate of public convenience and necessity (CPCN) to SCE to operate as a competitive local carrier (CLC) in the State of California. D.98-12-083 requires CLCs to implement specific mitigation measures adopted in the Mitigated Negative Declaration, attached to the Decision as Appendix D, in compliance with the California Environmental Quality Act.

Appendix D to D.98-12-083 contains the mitigation monitoring process for the CLCs proposed projects and describes the roles and responsibilities of government agencies in implementing and enforcing the selected mitigation measures.

Mitigation Measure B of Appendix D to D.98-12-083 requires the CLCs to file a quarterly report as an informational advice letter, one month prior to the beginning of each quarter, that summarizes the construction projects that each intends to construct in the upcoming quarter. The report is to contain a description of the project and its location and a summary of the CLC's compliance with the mitigation measures described in the Mitigated Negative Declaration. The purpose of the report is to inform the local agencies of future projects so that coordination of projects among CLCs in the same locality can be conducted.

Mitigation Measure B requires the quarterly report to be filed with the appropriate planning agency of the locality where the project(s) will occur and as an informational advice letter with the Commission's Telecommunications Division. This informational advice letter fulfills the latter requirement. SCE requests that the information contained in Appendix A remain confidential in accordance with Section 583 of the California Public Utilities Code.^{1/}

Concurrent with this filing, SCE is providing the appropriate planning agencies with the portion of the quarterly report pertaining to projects in such agencies' locality.

No cost information is required for this advice filing.

This advice filing will not increase any rate or charge, cause withdrawal of service, or conflict with any other schedule or rule.

In accordance with Public Utilities Code Section 491, notice to the public is hereby given by filing and keeping the advice filing open for public inspection at SCE's corporate headquarters.
