ADVICE 3B
(U 6096-C)

PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA
TELECOMMUNICATIONS DIVISION

SUBJECT: Informational Advice Letter
Supplement to the 1999 Fourth Quarter Report of Southern
California Edison Company for Competitive Local Exchange
Projects

PURPOSE

In compliance with Decision No. 98-12-083 (D.98-12-083), dated December 17, 1998, Southern California Edison Company (SCE) submitted for filing its 1999 Fourth Quarter Report on September 2, 1999. The Fourth Quarter Report summarized the competitive local exchange construction projects that were anticipated for the fourth quarter of 1999. SCE hereby submits for filing its supplement to the 1999 Fourth Quarter Report. The purpose of this supplement is to provide additional information about each project and to identify four additional construction projects that SCE intends to construct in the fourth quarter. The four additional projects are listed as Appendices 1 - 4.

This advice filing supplements in part Advice 3 and Advice 3A, filed on September 2, and October 1, 1999, respectively.

BACKGROUND

In D.98-12-083, the California Public Utilities Commission (Commission) granted a certificate of public convenience and necessity (CPCN) to SCE to operate as a competitive local carrier (CLC) in the State of California. D.98-12-083 requires CLCs to implement specific mitigation measures adopted in the Mitigated Negative Declaration, attached to the Decision as Appendix D, in compliance with the California Environmental Quality Act.

Appendix D to D.98-12-083, contains the mitigation monitoring process for the CLCs proposed projects and describes the roles and responsibilities of government agencies in implementing and enforcing the selected mitigation measures.

Mitigation Measure B of Appendix D to D.98-12-083, requires the CLCs to file a quarterly report with the planning agency of the locality where the project(s) will occur, and with the Commission's Telecommunications Division as an informational advice letter, one month prior to the beginning of each quarter. The report, which summarizes the construction projects that each CLC intends to construct in the upcoming quarter, is to contain a description of the project, its location, and a summary of the CLC's compliance with the mitigation measures described in the Mitigated Negative Declaration. The purpose of the report is to inform the local agencies of future projects so that coordination of projects among CLCs in the same locality can be conducted.

This informational advice letter supplements the advice letters filed by SCE on September 2, and October 1, 1999, to provide additional information about each project and to identify four additional construction projects. SCE requests that the information contained in the appendices remain confidential in accordance with Section 583 of the California Public Utilities Code.^{1/}

Concurrent with this filing, SCE is providing the appropriate planning agencies with the portion of the quarterly report attachments pertaining to projects in such agencies' locality.

No cost information is required for this advice filing.

This advice filing will not increase any rate or charge, cause withdrawal of service, or conflict with any other schedule or rule.

In accordance with Public Utilities Code Section 491, notice to the public is hereby given by filing and keeping the advice filing open for public inspection at SCE's corporate headquarters.
