

# TRANSPORTATION ELECTRIFICATION ADVISORY SERVICES

## Grant Assistance Program

Access Free Services to Help You Apply for EV Funding

**Millions of dollars are available in local, state, and national funding programs to help fleets purchase electric vehicles.**

## How Can We Help?

Transportation Electrification (TE) Advisory Services **Grant Assistance Program** helps qualified medium- and heavy-duty fleets apply for state and local grants that reduce the cost of purchasing EVs.

State and local grants for EVs are a complex and highly competitive process. The Grant Assistance Program helps you apply to the funding program and helps see that your application is complete and competitive—at no charge to you.

### There are two options:

### Grant Writing Assistance

For small fleets (20 vehicles or fewer) and mid-sized fleets (21-50 vehicles) that need hands-on support identifying and submitting a funding application.

### Grant Package Review Assistance

For fleets of any size that need support ensuring their completed funding application is ready to submit.

### What EV Funding Opportunities Will We Help You Apply For?

- SCAQMD Carl Moyer Program
- MSRC Last Mile Freight Program
- California VW Program for Class 8 Zero Emission Trucks
- And many other funding opportunities!

The Grant Assistance Program does not provide support for applying to rebate or voucher programs, such as HVIP and EnergiIZE. Due to limited funding, only one (1) grant assistance request per SCE customer will be accepted.

## Who Qualifies for Grant Writing Assistance?

- ✓ Medium- and heavy-duty fleets (GVWR 6,000 lbs. and above);
- ✓ Small and mid-sized fleets operating 50 or fewer on-road vehicles; and
- ✓ Active SCE business customer, located in a [Disadvantaged Community \(DAC\)](#).

### Grant Writing assistance includes:

- Consultation call to confirm funding source, review eligibility requirements, timeline, and contractual obligations;
- Draft grant outline and budget templates;
- Application checklist (identification of all required information and documentation); and
- Final grant application ready for submission.

To qualify for the **Grant Writing Assistance Program**, customers must also meet the following requirements:

- Not a Fortune 1000 business<sup>1</sup>;
- Must have plans for, or access to, financing to cover vehicle cost difference; and
- Must plan to purchase or lease two (2) medium- or heavy-duty electric vehicles within 24 months of executing a contract with a grant agency.

## Who Qualifies for Grant Package Review Assistance?

- ✓ Medium- and heavy-duty fleets (GVWR 6,000 lbs. and above);
- ✓ No fleet size requirement;
- ✓ Active SCE business customer; and
- ✓ Has already completed a grant application, but needs assistance with review prior to submission.

### Grant Package Review assistance includes:

- Consultation call with a grant writing expert;
- Application material review; and
- Grant package review call.

To qualify for the **Grant Package Review Assistance Program**, customers must also meet the following requirements:

- Must have plans for, or access to, financing to cover vehicle cost difference; and
- Must have plans to purchase or lease two (2) medium- or heavy-duty electric vehicles within 24 months of executing a contract with a grant agency.

Fleets larger than 51 vehicles may qualify for **Grant Package Review** services, but not **Grant Writing Assistance** which is intended for small and mid-sized fleets.
