

## Charge Ready Transport Program Participation Agreement

This Charge Ready Transport Program Participation Agreement (Agreement) sets forth the terms and conditions for Program Participant to participate in the Charge Ready Transport Program. Pursuant to the terms of this Agreement, SCE will (1) install the Infrastructure (as defined herein) at no cost to the Program Participant; and (2) if applicable, remit the Charging Equipment Rebate and the Make-Ready Rebate after all terms and conditions have been met by the Program Participant.

All Program Participants are eligible for no-cost installation of the utility-side and customer-side make-ready infrastructure. Only Program Participants meeting one of the following requirements will be eligible for the Charging Equipment Rebate:

- (1) Program Participant is installing Charging Equipment listed on the Approved Product List (APL) to service transit or school buses; or
- (2) Program Participant is installing Charging Equipment listed on the APL at a project site that is located in a designated Disadvantaged Community (DAC) and the Program Participant is NOT listed on the Fortune 1000 list.

Program Participant hereby agrees to the following terms and conditions of the Charge Ready Transport Program (the "Program").

### APPROVED CHARGING STATIONS

#### 1. **Total Number of Approved Charging Stations:**

The commitment to procure and install the number of approved Charging Stations applies whether or not the Program Participant is eligible for the Charging Equipment Rebate, as SCE will design and install the Infrastructure based on this commitment.

The Program Participant is required to install the number of approved Charging Stations set forth in this Agreement. Failure to procure and install the agreed upon number of Charging Stations may lead to termination of this Agreement, at SCE's discretion.

Number of Charging Stations Approved by SCE for installation:

#### 2. **Charging Equipment Rebate Amount (if applicable):**

If Program Participant is eligible for the Charging Equipment Rebate, the rebate amount paid to the Program Participant will be reduced to ensure that when combined with any other third-party rebates or incentives, the total rebate received by Program Participant does not exceed the Program Participant's total costs for procuring and installing the equipment. Following the successful installation of the Charging Equipment, the Program

Participant will certify whether it has received any other third-party rebates or incentives, so that SCE can determine the appropriate Charging Equipment Rebate.

Without factoring any potential rebate reduction pursuant to the paragraph above, the estimated (not to exceed) Charging Equipment Rebate amount is calculated as follows:

*Number of Charging Stations on APL (#) multiplied by the Rebate Amount per Charging Station (\$) equals the Estimated Charging Equipment Rebate (\$).*

APPROVED SITE LOCATION AND DESIGN

**3. Description of Approved Location at the Site:**

Brief description of the mutually-approved location on the Program Participant’s Site where Infrastructure will be installed.

**4. Conceptual Design of the Charge Ready Transport deployment on Program Participant’s Site:**

Conceptual Design, as approved by Program Participant and SCE, showing the location within the Site where SCE will deploy the charging infrastructure.

**[INSERT CONCEPTUAL DESIGN HERE]**

MAKE-READY INFRASTRUCTURE WORK

**5. The Make-Ready Infrastructure:**

If the Program Participant elects to have SCE install the entire make-ready infrastructure, SCE will do so at no cost to the Program Participant. In this case, the make-ready infrastructure will be part of the “Infrastructure” as defined in this Agreement.

If Program Participant elects to install the customer-side make-ready infrastructure, it is required to sign the Customer-Side Make-Ready Infrastructure Installation Addendum. If the Program Participant chooses this option, the customer-side make-ready infrastructure will not be included as part of the “Infrastructure,” which, as defined in this Agreement, refers only to infrastructure constructed and installed by SCE.

The Program Participant has elected the following option: (checkbox: self-installed customer-side make-ready; SCE-installed make-ready)

*(if self-installed, Agreement will display the “Customer-Side Make-Ready Infrastructure Installation Addendum” terms and conditions that will be embedded within, currently the Addendum is a separate document)*

APPROVED VEHICLE ACQUISITION PLAN

The Program Participant agrees to adhere to the Electric Vehicle (EV) Acquisition Plan as described below. The Plan may only be modified with consent of SCE, in SCE's sole discretion.

*(The VAP will be embedded within the Agreement at this location and displayed to the Program Participant)*
