Southern California Edison Marketplace

The energy savings.

Along with finding the best pricing for your product, you can view the energy efficiency rating. The Enervee Score® shows you how efficient the product is when compared to all other products in the category. The closer the score is to 100, the more efficient the product. See the difference you could make to your wallet.

Energy Efficiency & Cost

94
ideal efficiency

This Hayward SP3200VSPND pool pump has ideal efficiency, and uses less energy than comparable models.

The Enervee Score® shows you how efficient this product is compared to all the other products in the category. The closer the score is to 100, the more efficient the product.

The Enervee Score® for pool pumps is calculated based on performance per power consumption that we convert into an easy energy efficiency rating from 0 to 100.
