

11.3.2 Alternative Procedures for Requesting Interconnection Service. If Distribution Provider determines that the provision of Interconnection Service requested by Interconnection Customer would jeopardize the tax-exempt status of any local furnishing bond(s) used to finance its facilities that would be used in providing such Interconnection Service, it shall advise the Interconnection Customer within thirty (30) Calendar Days of receipt of the Interconnection Request.

11.4 New Distribution Provider

If Distribution Provider transfers control of its Distribution System to a successor distribution provider during the period when an Interconnection Request is pending, the original Distribution Provider shall transfer to the successor distribution provider any amount of the deposit or payment with interest thereon that exceeds the cost that it incurred to evaluate the request for interconnection. Any difference between such net amount and the deposit or payment required by this GIP shall be paid by or refunded to the Interconnection Customer, as appropriate. The original Distribution Provider shall coordinate with the successor distribution provider to complete any Interconnection Study, as appropriate, that the original Distribution Provider has begun but has not completed. If Distribution Provider has tendered a draft GIA to Interconnection Customer but Interconnection Customer has not either executed the GIA or requested the filing of an unexecuted GIA with FERC, unless otherwise provided, Interconnection Customer must complete negotiations with the successor distribution provider.
