5. Cost of Interconnection Facilities, Distribution Upgrades and Network Upgrades, Payment Schedule, On-Going Monthly Charges and Financial Security:

Appendix B to GIA

Milestones

Appendix C to GIA

Interconnection Details

Appendix D to GIA

Security Arrangements Details

Infrastructure security of Distribution System and Transmission System equipment and operations and control hardware and software is essential to ensure day-to-day Distribution System reliability and operational security. FERC will expect the ISO, all transmission providers, market participants, and interconnection customers interconnected to the Distribution System and Transmission System to comply with the recommendations offered by the President's Critical Infrastructure Protection Board and, eventually, best practice recommendations from the electric reliability authority. All public utilities will be expected to meet basic standards for system infrastructure and operational security, including physical, operational, and cyber-security practices.

Appendix E to GIA

Commercial Operation Date

This Appendix E is a part of the GIA between Distribution Provider and Interconnection Customer.

[Date]

[Distribution Provider Address]
