**Response Date: 2/27/2020**

---

**Question 004:**

Do you account for populations that rely solely on public transit when determining the locations of your community resource centers? How many of your community resource centers were accessible by public transit during the PSPS events in 2019?

**Response to Question 004:**

SCE plans its CRC locations around or adjacent to areas likely subject to a PSPS de-energization. Potential CRCs are identified in collaboration with stakeholders such as the local Office of Emergency Management. In 2019, six of the nine CRCs that were activated were accessible by public transportation.
