Question 006:

When calculating RSE for the Public Safety Power Shutoff:

- a. What costs are included in the calculation of the RSE?
- b. Does SCE include the costs to customers, impact on business and other potential third-party costs of the PSPS in its calculation of RSE?

Response to Question 006:

(a) SCE included the following mitigation costs into the calculation for the PSPS RSE:

Table	Mitigation Activity
22	Advanced weather monitoring and weather stations
22	Forecast of a fire risk index, fire potential index, or similar: fuel sampling program
22	Forecast of a fire risk index, fire potential index, or similar: surface & canopy fuels mapping
22	Forecast of a fire risk index, fire potential index, or similar: remote sensing/satellite fuel moisture
22	Forecast of a fire risk index, fire potential index, or similar: fire science enhancements
22	Personnel monitoring areas of electric lines and equipment in elevated fire risk conditions
22	Weather forecasting and estimating impacts on electric lines and equipment
23	Grid topology improvements to mitigate or reduce PSPS events: PSPS driven grid hardening work
26	PSPS events and mitigation of PSPS impacts
26	PSPS events and mitigation of PSPS impacts: Community resource centers
26	PSPS events and mitigation of PSPS impacts: customer resiliency and equipment incentives
26	PSPS events and mitigation of PSPS impacts: MICOP partnership
26	PSPS events and mitigation of PSPS impacts: community outreach
26	PSPS events and mitigation of PSPS impacts: wildfire infrastructure protection team and additional staffing
26	De-energization notifications

(b) SCE did not incorporate secondary impacts of PSPS, except through the costs of the programs listed in (a) sought to mitigate those impacts to our customers.
