How does SCE interact and collaborate with the California State Parks, BLM, and NPS?

Response to Question 049 (SCE-43895-E-414):

Please see SCE's response to WSD's question SCE-43895-L-353.

SCE collaborates with CA State Parks, BLM and NPS through regularly established meetings and on an as-needed basis as issues arise regarding our utility-owned and operated facilities on public lands. These interactions include sharing information and discussions about: upcoming capital project work and maintenance activities; status of pending permits and approvals; forecasts for wildfire related inspections (helicopter, UAS, and ground-based) and maintenance/repair activities; agency environmental resource concerns; regional authorization efforts; agency priorities (e.g., fuel load reduction); and areas for process/communication improvements. Meetings are attended by SCE staff from Regulatory Affairs, Environmental Services, T&D, and Government Lands as appropriate.

SCE holds annual meetings with CA Department of Parks and Recreation District Superintendents in the Angeles, Central Coast and Orange Districts. SCE holds annual meetings with BLM National Office leadership and the BLM CA State Director. SCE holds more frequent meetings (semi-annual, quarterly, monthly) with BLM's CA Deputy State Director, BLM District Managers, and BLM Field Office Managers. Weekly meetings are held between SCE and the BLM Desert District's Deputy Manager given the focus of activities in this region. SCE holds meetings quarterly with the NPS Pacific West Region Director and senior staff and with National Park Superintendents from Death Valley National Park, Joshua Tree National Park, Mojave National Preserve, Santa Monica Mountains National Park, and Sequoia/Kings Canyon National Park. In addition, SCE maintains single points of contact in our Government Lands Office with each public land jurisdiction so that necessary engagement outside of these regular meetings can occur seamlessly.
