***WSD-001 – Resolution WSD-001 to Establish Procedures for the Wildfire Safety Division's Review of 2020 Wildfire Mitigation Plans Pursuant to PUC Sections 8386 and 8386.3***

**DATA REQUEST SET W S D - S C E - 0 0 2**

**To: WSD**

**Prepared by: BILL KOTTEAKOS**

**Job Title: Senior Manager, Compliance**

**Received Date: 3/5/2020**

**Response Date: 3/10/2020**

---

**Question 072 (SCE-43895-I-387):**

A. Item Index [For CPUC tracking purposes. Please reference this item index with the response provided.]

SCE-43895-I-387

B. Request Type

Request for additional specificity or clarification regarding information submitted in WMP or maturity survey

C. Relevant section of WMP (if applicable)

5.3.5

D. Relevant question in Maturity Survey (if applicable)

NA

E. Relevant meeting or call (if applicable)

NA

F. Specific Data request

In section 5.3.5.4 on page 5-99, SCE states that “all non-emergency work that may cause sparks, such as pruning, is ceased until the period is over.” How many instances has SCE seen in which work was deemed an emergency and did not cease during a PSPS “period of concern”?

**Response to Question 072 (SCE-43895-I-387):**

SCE vegetation management does not have this information readily available and cannot estimate how many instances (if any) where this has occurred during a PSPS event. However, SCE could identify days where red flag warnings and PSPS events have been announced and perform manual reviews of contractor invoicing to determine if SCE is being invoiced for work that was performed on an emergent basis. However, performing that kind of analysis would require an extensive manual review process and take several weeks if not months to complete.
