DATA REQUEST SET W S D - S C E - 0 0 2

To: WSD
Prepared by: Michael Hinton
Job Title: Senior Manager
Received Date: 3/13/2020

Response Date: 3/31/2020

Question 001 (SCE-43895-Y-272) Supplemental:

A. Item Index [For CPUC tracking purposes. Please reference this item index with the response provided.]

SCE-43895-Y-272

B. Request Type

Request to submit missing information in WMP

C. Relevant section of WMP (if applicable)

6.1 Recent weather patterns and use of PSPS

D. Relevant question in Maturity Survey (if applicable)

NA

E. Relevant meeting or call (if applicable)

NA

F. Specific Data request

Provide PSPS event data at the circuit level (i.e., each circuit shut-off in an event should have its own row in the shapefile dataset). The exact schema for the spatial data can be found in the attached excel file, "20200303_PSPS_schema", in the sheet "PSPS Schema for utilities". "Risk drivers" should be the same across circuits in an event, but all other values should be unique to each circuit. The priority for each field is listed in the "priority" column. An example of the table is provided in the sheet "PSPS Event Template". Table should be organized as shown in "Example only PSPS Event Template" sheet with the column names matching "Field Name Shapefile" column in the "Schema" sheet. Each field is explained in the "Field description" column, and type of data for each field is in the "Field Type", and priority of data being received by CPUC is in the "Priority" column

Response to Question 001 (SCE-43895-Y-272) Supplemental:

Please see the attached file PSPS_Schema.gdb. This was served on Monday, March 9, 2020 and it is unchanged, however when it was originally served, it was erroneously marked as confidential.
