**Question 026 (SCE-43895-L-347):**

A. Item Index [For CPUC tracking purposes. Please reference this item index with the response provided.]

SCE-43895-L-347

B. Request Type

Request for additional specificity or clarification regarding information submitted in WMP or maturity survey

C. Relevant section of WMP (if applicable)

5.3.10 Stakeholder Cooperation and Community Engagement

D. Relevant question in Maturity Survey (if applicable)

NA

E. Relevant meeting or call (if applicable)

NA

F. Specific Data request

How many public forums and stakeholder meetings does SCE plan to hold in 2020?

**Response to Question 026 (SCE-43895-L-347):**

In 2020, SCE plans to host at least eight in-person community meetings in areas that have been highly impacted by PSPS and will highlight specific activities SCE is taking to harden the grid in these communities as well as the customer programs available during de-energization such as Community Resource Centers, although this may be reevaluated in light of the issues presented by COVID-19. In addition, SCE is currently exploring virtual meetings to reach a broader audience.

SCE plans to continue to host “PowerTalks” across its territory for its business and residential customers. PowerTalks are informational sessions pertaining to all aspects of power outages including PSPS, system maintenance and repair outages, grid hardening, and wildfire mitigations. SCE will also host Resiliency Workshops to assist non-residential customers in making their facilities more prepared for outages such as telecom, healthcare facilities, chemical, Critical Infrastructure, and schools.

As in 2019, SCE will continue conducting briefings and presentations with local, regional, state, and federal government officials, emergency management and public safety partners, tribal officials, community-based organizations, AFN customers, and the general public.

For more information, please refer to pages 14-15 in “SCE’s Second Progress Report on the

Implementation of De-energization Guidelines set forth in Appendix A of Decision 19-05-042”  
filed on March 4, 2020.
