F. Specific Data request

Provide a list of all outreach meetings held or attended by SCE regarding vegetation management practices for reducing wildfire risk, as discussed in section 5.3.5.1. This list should include the location, dates, times, and attendance of the meetings.

**Response to Question 064 (SCE-43895-I-379):**

In advance of planned annual pruning, SCE engaged with local cities where expanded clearances were prevalent. Some cities requested a town meeting, while others were satisfied with an offline conversation. SCE does not have a comprehensive list of these meetings.

At the community meeting level, vegetation work to reduce wildfire risk was a key topic in the content provided by SCE during wildfire preparedness and PSPS meetings. Vegetation work related to HTMP and Expanded Clearances was visually displayed (on poster boards) at these meetings. SCE also had vegetation management personnel at these meetings to answer any questions related to vegetation activities.

Attached is SCE's staffing guide that was used to calendar the events, and vegetation management personnel who attended are highlighted in yellow. Also attached is SCE's PSPS 2<sup>nd</sup> Progress Report dated March 2020. Section B (pages 34-35) of this report identifies the outreach locations which coincide with the staffing guide.
