Response to Question 005- SCE-43900-Z -630:

The GeoTiff format referred to the data requested in SCE-43879-Z-91 and was submitted as part of that response. Also as mentioned in SCE's response to that data request, SCE is unable to provide average 95th and 99th percentile wind data for its service territory in polygon format. SCE partners with a vendor to gather this data. Because of the granularity of the data and the size of SCE's service territory, the data it is only available in GeoTiff format.
