***WSD-001 – Resolution WSD-001 to Establish Procedures for the Wildfire Safety Division's  
Review of 2020 Wildfire Mitigation Plans Pursuant to PUC Sections 8386 and 8386.3***

**DATA REQUEST SET W S D - S C E - 0 0 3**

**To: WSD**  
**Prepared by: BILL KOTTEAKOS**  
**Job Title: Senior Manager, Compliance**  
**Received Date: 3/13/2020**

**Response Date: 3/18/2020**

---

**Question 008- SCE-43900-Z -633:**

A. Item Index  
SCE-43900-Z -633  
C. Relevant section of WMP (if applicable)  
5.3.5  
D. Relevant question in Maturity Survey (if applicable)  
NA  
E. Relevant meeting or call (if applicable)  
NA  
F. Specific Data request  
Submit locations of vegetation projects (completed in the last 5 years and planned for the future).  
G. Format in which the data is to be provided  
GIS file

**Response to Question 008- SCE-43900-Z -633:**

SCE does not have specific vegetation projects but manages vegetation within its entire service territory on an annual basis to ensure the clearance distances, specified in the applicable standards such as GO 95, FAC-003-4 and PRC4292 / 4293, are not encroached upon. Managing these clearances is considered normal compliance practices and not project work. In 2019, SCE implemented expanded clearances, where achievable, in accordance with CPUC GO 95 Rule 35 Appendix E, which is now considered part of SCE's normal compliance program. These practices are expected to continue indefinitely.

Beyond its normal compliance program SCE implements the following programs (also not considered projects) in the CPUC Tier 2 and Tier 3 HFRA which are planned to continue in the future:

- Drought Relief Initiative
- Bark Beetle
- SCE's Hazard Tree Management Plan

SCE has previously provided GIS files with Tier 2 and Tier 3 boundaries.
