

Southern California Edison
2023-WMPs – 2023-WMPs

DATA REQUEST SET T U R N - S C E - 0 0 1

To: TURN

Prepared by: Gary Cheng

Job Title: sr. advisor

Received Date: 4/25/2023

Response Date: 4/28/2023

Question 05:

For any project included in SCE's TUG program for 2023-2025, please identify the project by circuit or circuit segment name (the smallest applicable unit) and number of miles, and provide the RSE that SCE calculated for the project for:

- a. Undergrounding, and
- b. Covered Conductor, including CC++

Please provide the input data for the RSE calculations in Live Excel workbook(s).

Response to Question 05:

SCE quantifies RSE values at program level, and SCE has not presented RSE on a project basis for TUG. Please see SCE's response to TURN-SCE-001 Question 4 of for the RSE calculated for TUG work forecast in this WMP. In addition, SCE discusses the process it takes to identify and select mitigation initiatives for specific locations within its WMP, including within Section 7.1.4 - Mitigation Selection Process.
