SUBJECT: Subject: Timepiece 115/33 kV Project – Environmental Surveys
Location: Apple Valley & Victorville, San Bernardino County, CA
Assessor Parcel Number: «APN»

To Whom It May Concern,

This letter is to notify you that, in compliance with the state and federal environmental regulations, Southern California Edison Company ("SCE") and its representatives may be on your property, APN «APN», conducting environmental surveys beginning September 29, 2025 to December 31, 2026 relating to SCE's Timepiece 115/33 kV Project ("Project").

The environmental surveys involve visual-only inspections of your property for existing conditions and will **NOT** involve invasive testing. The surveys will be to note the location of biological resources, burrowing owls, botanical resources, aquatic resources, cultural resources, and paleontological resources so that they can be avoided or mitigated for when SCE is analyzing the Project.

The current Project scope of work proposes to construct a new 115/33 kV substation and 2 new 115kV subtransmission lines and telecommunication fiber lines to serve the forecasted load. The exact routing and full scope of work is still in the developmental phase.

Your cooperation regarding this matter is greatly appreciated. Please contact me at (909) 274-1885 or at stephanie.tsai@sce.com if you have any questions regarding this survey.

Sincerely,

Stephanie Tsai
