

# Notice of Southern California Edison Company's Rate Increase Request

## Pacific Gas and Electric Company's (PG&E) Diablo Canyon Power Plant (DCPP) 2027 Cost Recovery Application to the California Public Utilities Commission (CPUC) (A.26-03-031)

### What is Being Requested?

PG&E is authorized to recover DCPP costs from the customers of other electric utilities in California, including customers of Southern California Edison Company (SCE) with no additional markup. PG&E is the only applicant seeking approval from the CPUC. SCE customers are responsible for \$208.330 million, and SCE is required by law to collect that authorized amount. SCE is providing this notice of PG&E's application because it could result in a rate increase for SCE's customers.

### Proposed Increase by Customer Class

Customer Class	¢/kWh Increase	% Increase
Residential (Non-CARE)	0.13	0.3%
Residential (CARE)	0.08	0.4%
Lighting, Small, & Medium Power	0.10	0.3%
Large Power	0.07	0.4%
Agricultural & Pumping	0.08	0.3%
Street & Area Lighting	0.06	0.2%
Standby	0.05	0.3%

### How Would This Impact the Average Residential Customer?

If the request is approved, the average residential customer using 500 kWh per month would see a bill increase of approximately \$0.65 per month in 2027. Similarly, a typical CARE residential customer using 500 kWh per month would see a rate increase of \$0.42 per month. The actual impact will vary based on usage, baseline territory, and other factors.
