Note 1:

FERC Adjustment: In 2021 under FERC accounting and reporting, SCE began recording vendor discount credits for early payment of invoices to the originating invoice accounting that includes distribution, transmission, and generation operating and maintenance expense accounts as well as in electric plant in service accounts to comply with FERC's Division of Audits and Accounting audit of SCE's accounting and reporting (Docket No. FA20-1-000). The audit found SCE was required to record transactions on its books and records at cost to the utility, meaning recording the purchased item or service at the reduced cost including the discounts in its accounts, per FERC's accounting requirements. Previously, SCE recorded vendor discount credits to Administrative and General (A&G) account 930.2 Miscellaneous General Expenses. For GAAP accounting and reporting, SCE continues to record the vendor discount credits in its Operating Expense account, resulting in an \$13m total net income difference between GAAP and FERC, where GAAP has the \$13m credit under general operating expense and FERC has it as a credit under utility plant. Vendor Discount treatment ends in 2025. In December 2025, management identified errors related to the accounting for Catastrophic Event Memorandum Account (CEMA) Storm expenses. SCE recorded costs to Distribution O&M expenses instead of Transmission O&M expenses for the years ended December 31, 2024
