

CA TRIBAL LEADERS ENERGY AND SAFETY SUMMIT

May 18-20, 2026 • Viejas Casino & Resort

About

Thanks to this year's Tribal Nation sponsor, the Viejas Band of Kumeyaay Indians, for hosting the 5th Annual CA Tribal Leaders Energy and Safety Summit in Alpine, California. The annual investor-owned, utility-led Summit is designed to share information between SDG&E, SCE, PG&E, tribes, federal and state agencies, and corporate and community agencies.

Join us for three days of engaging conversations between tribes and subject matter experts about emergency management, enhancing resiliency, and strengthening energy sovereignty. There will also be networking opportunities, zero-emission technology demonstrations, a resource fair, and examples of tribes leading the way towards a clean energy future.
