

## Notice of Southern California Edison Company's Rate Increase Request

### Southern California Edison Company's (SCE) Application for Authorization to Deploy Advanced Metering Infrastructure (AMI) 2.0 and for Associated Cost Recovery to the California Public Utilities Commission (CPUC) A.26-03-030.

#### What is Being Requested?

SCE is requesting an increase in revenue of \$1,865 million from 2026-2033. Based on the year of the highest rate impact, this amounts to a total requested rate increase of 0.7¢/kWh (2.5%).<sup>1</sup> The current meters are nearing the end of their service life and they rely on legacy technology. SCE seeks to replace them with contemporary meters that will enable SCE to continue current meter functionality and provide new capabilities and customer benefits. This increase will be phased into rates over the years in this request.

#### Proposed Rate Increase by Customer Class in 2033

Customer Class	¢/kWh Increase	% Increase
Residential (Non-CARE)	1.1	2.6%
Residential (CARE)	0.6	2.8%
Lighting, Small, & Medium Power	0.8	2.5%
Large Power	0.4	2.1%
Agriculture & Pumping	0.6	2.3%
Street & Area Lighting	0.4	1.1%
Standby	0.2	1.4%

The table shows the requested increase in rates for the year with the highest revenues (2033) compared to current rates. Actual changes in rates may vary by year.

#### How Would This Impact the Typical Residential Customer?

If the request is approved, a typical non-CARE residential customer using 500 kWh per month would see a bill increase of approximately \$4.87 per month.<sup>2</sup> Similarly, a typical CARE residential customer using 500 kWh per month would see a bill increase of \$3.17 per month.<sup>3</sup> The actual impact will vary based on usage, baseline territory, and other factors.

#### Additional Information

An administrative law judge will hold hearings, consider evidence, testimony, and public comments before drafting a proposed decision on this application. CPUC Commissioners will then vote on a final decision at a public meeting.
