

Free Energy-Efficient Appliances to Lower Your Electric Bill

Help lower your energy costs by replacing your current household refrigerator, cooling system, lighting, and more with energy-efficient models through the Energy Savings Assistance Program.

Available Appliances and Services

Qualified SCE customers may be eligible for several appliance upgrades or energy-saving services. These are grouped into Basic and Basic Plus offerings. Our SCE-approved contractor will collect information to help us determine what you may be qualified to receive.

Basic offerings include:

- Lighting
- Smart Power Strip
- Refrigerator Replacement
- Smart Thermostat Installation
- Thermostatic Shower Valve/Showerhead Installation
- Clothes Washer Replacement
- Dishwasher Replacement
- Freezer Replacement
- Heat Pump Water Heater Replacement
- Pool Pump Replacement
- Cooling*
 - Evaporative Cooler Installation
 - Evaporative Cooler Maintenance
- Weatherization Services

Basic Plus offerings include:

- All Basic Offerings
- Cooling*
 - Window or Wall AC Replacement
 - Central AC or Central Pump Replacement
 - Portable AC Installation
- HVAC Filter

*These services may not be available in all areas.

The Energy Assistance Program — Easy as 1-2-3

Step 1: Qualification and Assessment

To be eligible, you must meet specific household income guidelines. After income qualification, our approved contractor will do a walk-through of your home to collect information to help us determine of installing one or more appliances or providing services.

Step 2: Service Delivery

Our approved contractors will install the appliances and provide services such as weatherization.

Step 3: Inspection

We may perform an inspection in your home to make sure our approved contractor completed the work according to our quality standards. If the work was not done properly, it will be redone at no cost to you.
