Honorable Debbie Anne Reese, Secretary
Federal Energy Regulatory Commission
888 First Street, N.E.
Washington, D.C. 20426

**Subject: Lundy Hydroelectric Project (FERC No. 1390)
Draft License Application**

Dear Secretary Reese:

In accordance with Section 5.16(c) of the Federal Energy Regulatory Commission (FERC or Commission) regulations,¹ Southern California Edison (SCE or Licensee) respectfully submits the enclosed Draft Application for New License for a Major Water Power Project 10 MW or Less (DLA) for the Lundy Hydroelectric Project (Lundy Project or Project), FERC Project No. 1390.

The Lundy Project is a 3-megawatt facility located on the eastern slope of the Sierra Nevada along Mill Creek, approximately 8 miles northeast of Lee Vining, in Mono County, California. The Lundy Project occupies approximately 53.1 acres of federal land within Inyo National Forest administered by the U.S. Forest Service, and approximately 0.9 acres of federal land administered by the U.S. Bureau of Land Management. The current license for the Lundy Project expires on February 28, 2029. SCE is pursuing the relicensing of the Lundy Project using FERC's Integrated Licensing Process (ILP) pursuant to Part 5 of FERC's regulations.²

Pursuant to sections 5.5 and 5.6 of the Commission's regulations,³ SCE filed a Notice of Intent to File a License Application (NOI) and the Pre-Application Document (PAD) for the Lundy Project on February 23, 2024.⁴ SCE intends to file its Final License Application (FLA) for the Project with FERC on or before February 28, 2027, in accordance with Section 15(c)(1) of the Federal Power Act (FPA) and FERC's implementing regulations,⁵ to continue operation and maintenance of the Project under a new license.

¹ 18 C.F.R. § 5.16(c).

² 18 C.F.R. Part 5.

³ 18 C.F.R. §§ 5.5, 5.6.

⁴ Accession No. [20240223-5045](#).

⁵ 16 U.S.C. § 808(c)(1); 18 CFR § 5.17(a).

Secretary Reese

The DLA is a major milestone in an intensive, multi-year relicensing effort by SCE, federal and state resource agencies, Native American Tribes, non-governmental organizations, and members of the public. Since filing the NOI and PAD, SCE worked diligently with stakeholders to study the environmental and other public resources associated with the Project in an effort to inform SCE's relicensing proposal, as set forth in the DLA, and FERC's environmental review under the National Environmental Policy Act (NEPA), as well as to inform decision making under the FPA and other applicable programs. Major milestones in this ILP that inform the enclosed DLA include:

- FERC's Scoping Document 1;⁶
- FERC's Scoping Document 2;⁷
- SCE's Proposed Study Plan;⁸
- SCE's Revised Study Plan;⁹
- FERC's Study Plan Determination;¹⁰
- SCE's Initial Study Report;¹¹ and
- SCE's Initial Study Report Meeting Summary.¹²

In addition, the DLA was prepared in accordance with FERC's ILP regulations set forth in Sections 4.61 and 5.18 of FERC's regulations,¹³ as applicable, and consists of the following draft technical exhibits and environmental report:

- Initial Statement;
- Exhibit A – Project Description;
- Exhibit E – Environmental Report;
- Exhibit F – General Design Drawings (Contains Critical Energy Infrastructure Information [CEII]) to be filed with the Final License Application;
- Exhibit G – Project Maps; and

⁶ Accession No. [20240417-3019](#).

⁷ Accession No. [20240729-3029](#).

⁸ Accession No. [20240805-5082](#).

⁹ Accession No. [20241204-5139](#).

¹⁰ Accession No. [20250102-3061](#).

¹¹ Accession No. [20260105-5178](#).

¹² Accession No. [20260202-5159](#).

¹³ 18 C.F.R. §§ 4.61, 5.18.

Secretary Reese

- Exhibit H – General Information.

The draft Exhibit F – General Design Drawings and Supporting Design Report (SDR) contain Critical Energy Infrastructure Information (CEII).¹⁴ This information contains sensitive and detailed engineering information that, if used incorrectly, may compromise the safety of the Project and those responsible for its proper operation. Exhibit F and the SDR are e-filed with FERC under the “CEII tab” and are marked as “CUI//CEII–Contains Critical Energy Infrastructure Information–DO NOT RELEASE” in accordance with instructions issued by FERC.¹⁵ Because CEII is statutorily designated as exempt from public disclosure under the Freedom of Information Act (FOIA),¹⁶ SCE requests that these documents be maintained in a non-public file and withheld from public disclosure in accordance with applicable regulations.

As outlined in Section 5.18 of FERC’s regulations,¹⁷ the DLA discusses SCE’s proposal for continued operation and maintenance of the Project. Exhibit E includes discussion of the results of completed studies conducted in support of relicensing and consideration of how the information and data collected during the studies would address the issues that agencies and other relicensing participants raised and the Licensee’s proposal. In support of the proposed relicensing, Exhibit E provides evaluation of the potential effects on environmental, recreational, and cultural resources that may occur as a result of continued Lundy Project operation under a new license. As appropriate, Exhibit E includes the Licensee’s preliminary proposals for the protection and mitigation of effects on, or enhancements to, resources that are associated with the continued operation of the Lundy Project. Any remaining study results will be included as part of the Updated Study Report and filed with FERC no later than January 4, 2027 and will be included in the FLA.

In accordance with section 5.16(e) of the Commission’s regulations,¹⁸ SCE seeks comments on the enclosed DLA from Commission staff, federal and state resource agencies, Tribes, and other relicensing participants. All comments on the DLA must be filed within 90 days, i.e., by December 30, 2026. To ensure broad distribution of the DLA, SCE is distributing an electronic copy of this DLA to the relicensing participants identified in the attached distribution list. In addition, public portions of the DLA are available to any person interested in the Project’s relicensing through SCE’s public relicensing website at <https://www.sce.com/lundy> and from FERC’s eLibrary at <https://elibrary.ferc.gov/eLibrary/search> under FERC Docket No. P-1390.

¹⁴ *Id.* § 388.113.

¹⁵ *Id.*

¹⁶ 16 USC § 824o-1(d)(1)(A).

¹⁷ 18 C.F.R. § 5.18.

¹⁸ 18 CFR § 5.16(e).

Secretary Reese
Page 4 of 4
September 30, 2026

SCE appreciates the continuing participation in this relicensing process by Commission staff, resource agencies, Tribes, and all relicensing participants and looks forward to

receiving comments on the enclosed DLA as the relicensing effort moves towards the post-filing phase before the Commission. If you have any questions or require any additional information, please contact Matthew Woodhall, Senior Regulatory Advisor, by phone at 626-302-9596 or via email at matthew.woodhall@sce.com.

Sincerely,

DocuSigned by:
