NOTICE OF APPLICATION
Southern California Edison Company Request to Increase Electric Rates
APPLICATION A.25-03-009

Why am I receiving this notice?

On March 14, 2025, Southern California Edison (SCE) filed an application with the California Public Utilities Commission (CPUC) requesting authorization to recover costs related to NextGen Enterprise Resource Planning (ERP) system.

SCE requests approval to recover \$1.162 billion of revenues over the 2025-2032 period related to its NextGen ERP system. SCE proposes to record the revenues in a two-way balancing account to allow for the recovery of NextGen ERP system-related costs, up to the amount authorized by the CPUC.

Why is SCE requesting this rate increase?

The proposed funding in this application is for replacement of SCE's core ERP system that has been in service for over 15 years and will soon be obsolete. This system is very complex and manages a vast amount of critical day-to-day information across SCE's most central processes that are necessary for SCE's business operations. Due to the lead time required to replace the core ERP system, and related software applications, SCE must begin taking the necessary steps for replacement now. Funding for the NextGen ERP system will also enable SCE to make cost-efficient upgrades to the ERP system. This will expand SCE's operational capabilities and enable business improvements that provide grid resiliency and customer benefits.

How could this affect my monthly electric rates?

If SCE's request is approved by the CPUC, the average residential monthly bill using 500 kWh per month would increase by approximately \$1.35 or 0.8% per month on average over the 2025-2032 period. The average CARE residential monthly bill with the same monthly usage would increase by approximately \$0.85 or 0.8% per month on average over the 2025-2032 period.

How does the rest of the process work?

The NextGen ERP Application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt, modify, or deny SCE's application. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Contact the CPUC

Parties to the proceeding may review the NextGen ERP Application, including the Public Advocates Office. The Public Advocates Office is an independent consumer advocate within the CPUC that represents customers in order to obtain the lowest possible rate for service consistent with reliable and safe service levels. For more information about the Public Advocates Office, please call 1-415-703-1584, email PublicAdvocatesOffice@cpuc.ca.gov, or visit www.publicadvocates.cpuc.ca.gov.

Please visit apps.cpuc.ca.gov/c/A2503009 to submit a comment about this proceeding on the CPUC Docket Card. Here you can also view documents and other public comments related to this proceeding.

Your participation by providing your thoughts on SCE's request can help the CPUC make an informed decision.

If you have questions about CPUC processes, you may contact the CPUC's Public Advisor's Office at:
