Thank you for joining us this evening.

This meeting is being recorded.

Please note, your camera, microphone, and reactions are disabled for this meeting.

To add closed captioning, please click the three dots found at the top right of the tool bar. In the dropdown menu, select turn on live captions.

To submit a question, use the **Q&A window** throughout the session.

Please only submit questions that are relevant to the presentation and topics being presented.
Our Commitment to California

Keeping our communities safe from wildfires

Community Meeting for San Bernardino County
May 19, 2022
HOW TO SUBMIT A QUESTION

You can submit a question using the Q&A window throughout the session.

Please only submit questions that are relevant to the presentation and topics being presented.
PRESENTERS

Michael Ramirez
Emergency Services Manager
San Bernardino County

Jennifer Cusack
Government Relations Manager
Local Public Affairs

Greg Ferree
Vice President
Vegetation Inspections & Operational Services

Cameron McPherson
Senior Manager
Wildfire Safety

Danielle Anderson
Senior Manager
Customer Care & Access and Functional Needs
AGENDA

• 2021 Wildfire Season
• SCE’s Wildfire Mitigation Activities
• Public Safety Power Shutoffs
• Reducing the Need for PSPS
• PSPS Communications
• Customer Programs & Resources
• Q&A
An emergency can happen at any time.

Have a Plan & Make a Kit
You can help your family be prepared for any emergency situation with a safety preparedness plan, an emergency kit with some basic supplies and advance planning. Whether a storm, an earthquake, a wildfire or a flood comes our way, preparedness will help everyone cope better and stay safer. Learn more at sce.com/beprepared.

San Bernardino County Emergency Preparedness Links:

California experienced another year of extreme wildfire activity, exacerbated by intensifying drought. Dry vegetation and strong winds continue to threaten our communities during year-round fire season.

6 OF THE 7 LARGEST CALIFORNIA WILDFIRES HAVE HAPPENED SINCE 2020*

*Source: https://www.fire.ca.gov/media/4jandlhh/top20_acres.pdf
REDUCING WILDFIRE RISK IN OUR COMMUNITIES
Insulated wire is a very valuable tool to expeditiously and cost-effectively reduce wildfire risk specific to SCE

Undergrounding considered for certain locations based on risk profile

**Geography**
Contact from vegetation and other objects is a key risk factor in much of SCE's area
Insulated wire is very effective in mitigating these risks

**Cost to Implement**
Insulated wire installation costs significantly lower than undergrounding
Undergrounding costs vary depending on construction methods, locational, and operational factors

<table>
<thead>
<tr>
<th>Vegetation Type</th>
<th>Cost per mile1 $ in Millions</th>
<th>~65–90% lower</th>
<th>~0.6</th>
</tr>
</thead>
<tbody>
<tr>
<td>Under</td>
<td>Covered Conductor</td>
<td></td>
<td></td>
</tr>
<tr>
<td>~1.5</td>
<td>~5.5</td>
<td>~65–90% lower</td>
<td>~0.6</td>
</tr>
</tbody>
</table>

**Execution Speed**
Insulated wire can be deployed within 16–24+ months, and sometimes faster
Undergrounding generally takes 25–48+ months

- Actual installed miles of insulated wire2 vs. hypothetical undergrounded miles3
  - Insulated wire ~3,260
  - Underground ~3,260

**Unique Factors**
Undergrounding is considered where there is:
- High burn frequency
- Limited egress
- Wind speeds exceeding insulated wire PSPS thresholds
- Exceptionally high potential consequence (>10,000 acres)

Several hundred miles currently under consideration for additional enhanced mitigation, including undergrounding

---

1. Based on data provided in SCE's 2022 WMP Update
2. Through March 31, 2022
3. Undergrounded miles is a hypothetical approximation of underground lines that could have been constructed through March 31, 2022, based on SCE's assumptions and experience with planning and executing undergrounding projects

**INSULATED WIRE IS ONE OF THE MOST EFFECTIVE MEASURES TO REDUCE WILDFIRE & PSPS RISKS IN SCE’S SERVICE AREA**
REDUCING WILDFIRE RISK & PSPS IMPACTS – BY THE NUMBERS

SCE estimates its wildfire mitigation and PSPS measures have reduced the risk of damage from catastrophic wildfires by 65% to 70%, relative to pre-2018 levels.

ONGOING WILDFIRE MITIGATION EFFORTS

~34% of overhead wire in high fire risk areas replaced with insulated wire

Suite of mitigations include system hardening, annual equipment inspections, vegetation management and situational awareness measures

IMPROVED PSPS EXECUTION & CUSTOMER SUPPORT

73% reduction in PSPS outage time in 2021 on frequently impacted circuits

81,000 customers removed from scope from exceptions and switching protocols

64 Community Resource Centers available

AERIAL FIRE SUPPRESSION SUPPORT

Contributed $18 million for the creation of the quick reaction force of the world’s largest helitankers

Used on more than 50 fires in 2021, helping to suppress fires in its early stages

1. A wildfire directly causing one or more deaths, damaging or destroying more than 500 structures, or burning more than 140,000 acres of land
2. Though March 31, 2022
3. Based on 2021 weather and fuel conditions
PUBLIC SAFETY POWER SHUTOFFS

• A tool of last resort used during dangerous fire conditions (weather and fuels)
• De-energizing lines to prevent a spark from our equipment starting a significant wildfire
• Primarily impacts circuits in high fire risk areas
• Use of multiple methods to notify customers and partners in affected areas before, during and after a PSPS event
• In 2021, continued PSPS improvements and reduced frequency, scope and duration of PSPS

Damage/hazards found after strong winds during PSPS

Data as of 12/31/21
HOW TO SUBMIT A QUESTION

You can submit a question using the **Q&A window** throughout the session.

Please only submit questions that are relevant to the presentation and topics being presented.

**56%**

REDUCTION IN CUSTOMER MINUTES OF INTERRUPTION IN SAN BERNARDINO COUNTY
# EXPEDITED GRID HARDENING

**ON CIRCUITS IMPACTED BY PSPS IN SAN BERNARDINO COUNTY**

## Completed in 2021

- Expedited installation of*:  
  - 54 miles of insulated wire  
  - 3 sectionalizing devices  
  - 1 weather stations  
- Removed 5 circuits and 5 circuit segments from PSPS consideration  
- Raised PSPS wind threshold on 9 circuits

*Note: Number of total installed on all circuits in the county may be higher

## Plans for 2022

- Expedite installation of:  
  - 86 miles of insulated wire  
  - 1 weather station  
- Removed 1 circuit from PSPS consideration  
- Raise PSPS wind threshold on 5 circuit segments and 1 circuit

**Target Completion Date:**  
Oct. 1, 2022
Identified Circuits for Expedited Grid Hardening in San Bernardino County
**Example of Reducing the Need for PSPS**

**Circuit:** Parina

**Community:** Rancho Cucamonga, Upland

**Planned Work:**
- Implement operational protocols to raise PSPS windspeed thresholds

**Expected Completion Date:**
- 10/1/2022

**Expected Improvements:**
- **100% reduction** in customer outage time, assuming the same weather conditions in 2020
EXPECTED IMPROVEMENTS

With the implementation of our plans this year, we expect to see a **75% reduction in customer outage time** across these PSPS impacted circuits in San Bernardino County communities compared to 2020 and 2021, assuming the same weather conditions.

Updated: 05-18-2022

1) PSPS impacted circuits are circuits that have experienced one or more PSPS related outages in 2019-2021
2) Customer outage time is measured as total Customer Minutes of Interruption (CMI)
3) The Crestline circuit planned work is only a weather station for which benefits cannot be calculated
**Notifications**
- SCE provides PSPS notifications through various communication channels
  - SCE Account Holders (email, text, and voice call)
  - Address Level Alerts
  - Sign up to stay informed before, during and after a PSPS event

**SCE Outage Map**
- Consolidated outage map that incorporates PSPS outages
SCE CUSTOMER PROGRAMS & RESOURCES

CUSTOMER RESOURCE CENTERS & COMMUNITY CREW VEHICLES

• Services offered: information, charging of mobile devices, assistive technology/medical devices, PSPS outage alert enrollment support, access to water, light snacks, ice and ice vouchers, restrooms, and small insulated bags to keep medication cool

• Translations services for over 120 languages including American Sign Language (ASL)

CUSTOMER PROGRAMS

• Partnered with 211 to help customers with Access and Functional Needs (AFN) develop a resiliency plan and enroll in eligible assistance programs

• 211 provides specialized referrals for customers with AFN experiencing PSPS. Services include connecting customers to shelf-stable food, hot meal delivery, transportation and/or temporary shelter

• SCE will improve communication methods, including videos utilizing ASL for marketing and PSPS notifications

CUSTOMER RESILIENCY EQUIPMENT

• Critical Care Backup Battery program and the In-Event Battery Loan pilot provide eligible customers with a portable backup battery to power assistive technology/medical devices during a PSPS event

• Rebates on portable batteries and generators for customers residing in high fire risk areas on marketplace.sce.com
