

**AGREEMENT FOR CONTINUITY OF ELECTRIC SERVICE
(Owner Authorization Agreement)**

Dear Customer,

Thank you for requesting the application for an Owner Authorization Agreement. The Continuity of Electric Service Agreement allows property owners and managers to maintain uninterrupted electric service while a rental property is vacant.

Here are some important points you should remember and understand about the Owner Authorization Agreement.

1. Southern California Edison will waive the next day Service Establishment fee that would normally be charged to begin service in your name for the next business day.
2. Meters for the properties included in your Agreement will automatically transferred into your name when a tenant discontinues service with Southern California Edison. You will be responsible for the energy bills when service is automatically placed in your name, until service is applied for by the new tenant.
3. Energy bills for all properties included in your Agreement will be sent to the mailing address you provided with your application. We can accept only one mailing address per Agreement.
4. This Agreement will remain in effect until you notify us you no longer own or manage a property listed in your agreement. Requesting a shut-off of service will not remove that property from your agreement, and you could be charged for future electric service.
5. The entire apartment building and/or business complex must be enrolled in this agreement and cancelled in its entirety.
6. You may not cancel then reinstate a unit or units due to a difficult tenant situation. Once a request for cancellation is made, it shall remain cancelled.
7. Upon cancellation of this Agreement, any active service in the applicant's name covered by this Agreement will be subject to service disconnection unless SCE is notified otherwise.
8. Southern California Edison's Owner Authorization Department has full authorization to cancel and/or void this agreement at any time without notice. Reasons for cancellation may include but are not limited to unpaid bills by applicant of more than 30 days from the due date, U.S. returned mail, and hazardous or unsafe condition at premises.

Service Connection Safety Responsibility:

If the electric service is off (disconnected) at the time of the automatic turn-on into your name, SCE will turn-on (connect) the electric service at the premise to complete the service turn-on process. Please be advised it is your responsibility to ensure sensitive and/or potential hazardous equipment, in and around the property, is turned off or unplugged on the day of the turn-on (service connection).
