

Energy Education Center – Irwindale

Classes and workshops designed to help your business save energy, money and the environment

Providing practical solutions to help you make smart energy choices

Southern California Edison's Energy Education Center – Irwindale, is a resource for integrated energy efficiency, demand response, and distributed generation education and training using the latest in state-of-the-art technologies to help make the best energy decisions for your business.

Tours & Consultations

If you need expert advice on a remodel or retrofit for your business, considering a new equipment purchase, or want to know the latest in energy efficient technologies, come take a tour of our facility or schedule a technical consultation.

Energy Education

The Energy Education Center offers classes and workshops taught by renowned experts in areas such as commercial and industrial lighting, HVACR, energy management controls, sustainable technologies, and much more.

On-Location Classes & Workshops

If you are unable to make it to Irwindale there are On-Location classes and workshops offered in a number of areas throughout the SCE service territory with the primary goal of making educational offerings as accessible to you as possible.

Certifications and Accreditations:

- AIA Learning Units
- CALCTP Certification
- IHACI and NATE Certification
- BOC (Building Operator Certification)
- GBCI CMP Hours
- FSCI CEU's
- Water CEU's

Highlights & Unique Offerings

The Lighting Academy

The Lighting Academy is designed for anyone interested in becoming more knowledgeable in energy efficient lighting design and intended to provide guidance for the application of the latest lighting technologies and most energy efficient designs in the industry today.

Tool Lending Library

Did you know that SCE lends tools for free? If you live here or have an energy project in California, you can take advantage of this service. To borrow a tool, view a catalog, fill out a survey, or watch a "how to" video go to www.sce.com/tools; or you may call 800-772-4822 to get more information about the program.

Foodservice Technology Center

The Foodservice Technology Center is a one-of-a-kind demonstration kitchen that showcases the latest energy efficient commercial foodservice technologies. There are cooking demonstrations, comparison testing of multiple technologies side-by-side, and classes on how to reduce the operating costs in your foodservice business.

Smart Energy Experience™

The Smart Energy Experience™ lets you experience the future of energy efficiency, including how smart grid technologies are providing smarter, cleaner, and more reliable power to our customers. Self-Guided and Guided tours are available Monday through Friday. To schedule a Guided Tour or for more information, please call 1-626-815-7219 or email smarttours@sce.com.
