 APPLICATION (A.) 17-01-021**

The Evidentiary Hearings will take place on the following dates and locations:

| Date | Location |

The locations for the Evidentiary Hearings are wheelchair-accessible. If you need a Sign or other language translator, please contact the Public Advisor’s Office using the contact information at the end of this notice at least five working days before the Evidentiary Hearing you will attend.

SCE’S APPLICATION FILING

SCE’s request was made after the CPUC issued a ruling directing SCE to file a transportation electrification(TE) application, as mandated by Senate Bill (SB) 350. SB 350 orders the CPUC to direct electrical corporations to file applications for programs and investments to accelerate widespread transportation electrification. The total costs of the proposed projects and programs are approximately \$573 million in today’s dollars over the five-year program period. If the CPUC approves this application in its entirety in 2018, the following shows potential spending per year.

| Breakdown of Transportation Electrification Spending | | | | | | |
|---|---------|--------|---------|---------|---------|---------------------|
| | 2019 | 2020 | 2021 | 2022 | 2023 | 5 year Total |
| Total Amount per Year | 102,740 | 93,811 | 101,342 | 123,111 | 152,265 | 573,269 |

*Amount expressed in thousands.

THE KEY REASONS FOR SCE’S PROPOSED INCREASE

The primary reasons for the requested revenue increases are to:

1. Increase transportation electrification,
2. Reduce emissions of greenhouse gases,
3. Reduce California’s dependence on petroleum,
4. Meet air quality standards, and
5. Achieve the goals set forth in the Charge Ahead California Initiative.
