Make a Voluntary Contribution Today
For a Cleaner Tomorrow

How can you help the nation’s most populous state become a more environmentally friendly place to live and work? Simply make a voluntary contribution toward technologies that will capture greater amounts of renewable energy from resources such as the sun, wind, biomass, and geothermal formations.

Your contribution will help California meet its goal of generating more renewable energy and help educate consumers about the benefits of investing in renewable energy today for a cleaner environment tomorrow.

To make your voluntary contribution, enclose a check for any amount, payable to the Renewable Resource Trust Fund, in the return envelope with your bill payment. Upon receipt, we will forward your contribution to the California Energy Commission, which administers this fund. You can also mail your contribution directly to the California Energy Commission, Renewable Resource Trust Fund, P.O. Box 944295, Sacramento, California 94424-2950. For more information, please call (800) 555-7794, or visit www.sce.com/cecfund.

Stay On Budget With SCE’s Level Pay Plan

One easy way SCE can help you simplify your monthly budget is with our Level Pay Plan. This plan allows you to spread higher summer and lower winter bills into equal monthly payments over an entire year, based on your electricity usage for the previous 12 months.

Here’s how the plan works:

- The cost of electricity you’ve used over the past 12 months is calculated at current rates. This dollar amount is divided by 11 and becomes the Level Pay Plan amount. For the 12th month, you’ll receive a “settlement bill” on your Level Pay Plan statement page.
- If your average electricity usage increased over the period, your year-end statement will show a balance due.
- If you used less electricity over the period, the savings will be credited to your next bill.
- Your account is automatically reviewed and your Level Pay Plan amount may be adjusted to reduce your settlement balance in the 12th month.

Level Pay Plan can help you map out your electricity costs ahead of time, and if your usage remains steady, the plan will give you a better handle on your energy budget for the upcoming year.

The program is based on eligibility and some restrictions apply. To learn more about Level Pay Plan or to enroll, call (800) 434-2365 or visit www.sce.com/leveplan.

Health and Safety Tips for Temperature-Sensitive Customers

Extreme hot weather may be harmful to people who are in poor health or those who are sensitive to high temperatures. Here are steps you can take to avoid heat-related illness this summer, should you be without air conditioning:

**To help you stay cool in hot weather:**

- Take a cool shower or bath.
- Wear lightweight, loose, light-colored clothing and a head covering.
- Stay out of direct sunlight and limit outdoor activity to covered or shaded areas.
- Drink plenty of water to stay hydrated.
- Visit a movie theatre, an air-conditioned mall, a library or a community center.
- Visit friends or family whose homes are air-conditioned and are located in areas not affected by severe weather or rotating outages.

**What To Do During Rotating Outages?**

A rotating outage is a temporary and scheduled electricity outage that helps protect the integrity of the overall electric system. You can prepare for rotating outages by planning ahead: To learn which rotating group you or your friends and family members are assigned to, or to learn if there is a current rotating outage in your group, visit www.sce.com/rotatinggroup and type in your zip code.

Note: Rotating outages are designed to last no more than one hour. Customers in rotating outage group N001 are normally not subject to rotating outages. Your rotating outage group number is located at the top of your bill.

**Cooling Stations**

Customers who are temperature-sensitive may find it more comfortable to visit one of our “Cooling Stations” if rotating outages impact their residences. Cooling Stations are air-conditioned facilities providing temporary relief from the extreme heat. These facilities are normally exempt from rotating outages and are open to the public.

For a list of Cooling Stations, visit www.sce.com/planahead and click on Volunteer Cooling Station Locations. Or, call (800) 655-4555 to obtain a list of Cooling Stations in your area.

**Cool Centers**

This summer, SCE has opened facilities called “Cool Centers”, which may be especially helpful for residential customers who are income-qualified, seniors or those with special needs. The Cool Centers are designed to provide these customers with safe, air-conditioned locations to visit so they can save energy and money by not running their own cooling devices at home. Cool Centers are open from June 1 through October 15. To find a center near you, visit www.sce.com/coolcenters.

**Advance Notification of a Rotating Outage**

When possible, SCE will provide advance notice of a rotating outage via an automated telephone message to residential customers, or to someone in a customer’s household who files an application certifying that his or her health is at risk when he or she is exposed to extreme temperatures.

Note: If you already participate in SCE’s Medical Baseline program, you are automatically enrolled and do not need to complete this application form. Medical Baseline program participants receive advance notification, whenever possible, of rotating power outages that may affect them.

To sign up for advance notification, visit www.sce.com/planahead and click on Extreme Temperature Sensitivity notification service to download the application. Or, call (800) 655-4555 to request an application.

Return the completed application to:
Southern California Edison
Temperature-Sensitive Customer Representative
P. O. Box 6400
Rancho Cucamonga, CA 91729

Upon receipt of your application, SCE will place your name on a calling list to receive advance notice, whenever practical, if a rotating outage is anticipated in your area. This service will be provided to you at no cost.

SOUTHERN CALIFORNIA EDISON (SCE)
NOTIFICATION OF SUMMER DISCOUNT PLAN (SDP) APPLICATION FILING REGARDING PROPOSED INCREASE IN ELECTRIC RATES
APPLICATION NO. A.10-06-017

In compliance with California Public Utilities Commission (CPUC) decisions, Southern California Edison Company (SCE) has filed a Summer Discount Plan (SDP) Program application on June 30, 2010. SDP is an air conditioner cycling demand response program that has been called only for grid reliability and emergency reasons. Due to new requirements, the SDP program must be modified so that it can also be triggered based on the price of electricity. The modified program reduces customers' energy usage during peak periods, helps electric system reliability and allows SCE to avoid purchasing power at high price periods.

The application filing requests changes in SCE’s electric rates due to the incremental costs associated with transitioning the SDP program so that it can be a price-responsive program. These costs are not part of SCE’s normal business and therefore are not funded through existing rates. The application requests an increase in SCE’s revenue requirement of $13.45 million, or 0.12 percent. Recovery of these costs will be over a two-year period for a total of $26.9 million.¹

The CPUC will have a proceeding regarding the SDP application and will determine the reasonableness of SCE’s incremental costs for 2011 and 2012. Assuming the CPUC finds the costs reasonable, the estimated 2011 and 2012 one-time revenue requirement increase associated with the SDP application will be implemented in rates as soon as practical after the effective date of the decision.

¹Includes Franchise Fees & Uncollectibles.

CUSTOMER GROUP REVENUE IMPACT

<td>19.22</td>
</tr>
<tr>
<td>TOTAL</td>
<td>26.9</td>
<td>0.124</td>
<td>14.33</td>
<td>14.34</td>
</tr>
</tbody>
</table>

The table above shows an estimate of proposed revenues and rate changes by customer group. The proposed percentage increase in SCE’s total revenue is 0.124 percent. Any revenue change resulting from this Application will be consolidated with revenue changes from other SCE applications.

On an illustrative basis, if total rates were to change as requested, an average residential electric customer using 600 kilowatt-hours per month in the summer would see an increase of $0.06 per month, from $94.79 to $94.85.

FOR FURTHER INFORMATION FROM SCE

As noted above, you may review a copy of this Application and related exhibits at SCE’s corporate headquarters (2244 Walnut Grove Avenue, Rosemead, CA 91770). You may also view these materials at the following SCE business offices:

THE CPUC WELCOMES YOUR PARTICIPATION AND COMMENTS

The CPUC may hold evidentiary hearings whereby formal parties of record provide testimony and are subject to cross-examination before a CPUC Administrative Law Judge (ALJ). These hearings are open to the public, but only those who are formal parties of record may participate. The CPUC has its own court reporters who will record the comments of those formal parties of record participating in the evidentiary hearings. After considering all proposals and evidence presented during the formal hearing process, the assigned ALJ will issue a proposed decision. When the CPUC issues a final decision on this application, it may adopt, amend, or modify all or part of the ALJ’s proposed decision as written. The CPUC’s decision may be different than SCE’s request.

The Division of Ratepayer Advocates (DRA) is an independent arm of the CPUC, created by the Legislature to represent the interests of all utility customers throughout the state to obtain the lowest possible rates for service consistent with reliable and safe service levels. DRA has a multi-disciplinary staff with expertise in economics, finance, accounting, and engineering.

CPUC PROCESS

You may submit written comments to the CPUC’s Public Advisor’s Office at the address or e-mail shown below. Please state that you are writing concerning SCE’s application A.10-06-017. Your comments will become a part of the formal correspondence file for public comment in this proceeding. The Public Advisor’s Office will circulate your comments to the five Commissioners, the ALJ, DRA, and to CPUC staff assigned to this proceeding. You may also write to the CPUC if you need advice on how to participate in this proceeding, or would like to receive further notices regarding the date, time, and place of any hearing on SCE’s Application. You may also review a copy of this Application and related exhibits at SCE’s corporate headquarters (2244 Walnut Grove Avenue, Rosemead, CA 91770). Finally, you may also review a copy of this Application and related exhibits at the CPUC’s main office in Los Angeles listed below.
