

SCE Provides Estimated Rate Changes for 2015

As we move further into the year, we are providing you with SCE's forecasted 2015 rate projections – with an expected outlook of relatively stable rate levels – to keep you informed of changes that can impact your electricity use.

As you review your business decisions for 2015, we're here to provide you with **powerful solutions** that can help put you in greater control of your bottom line.

Summary of Proposed Rate Changes for Bundled Service Customers

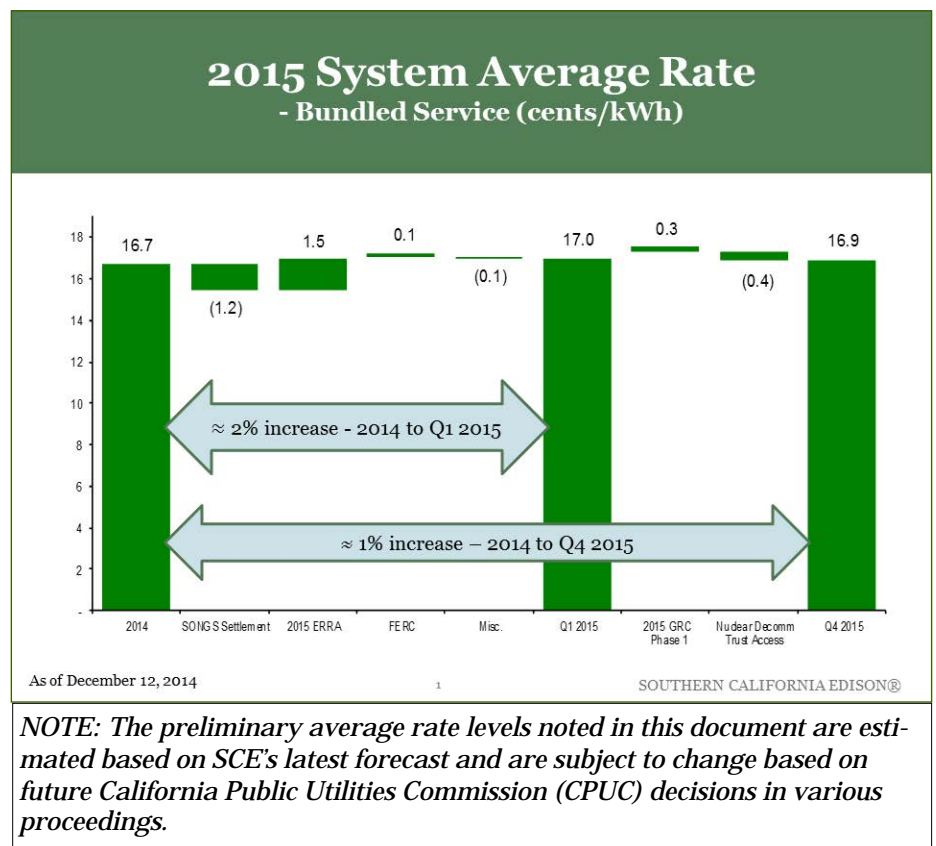

(Those Who Pay SCE for Generation, Transmission, and Distribution Services)

The chart below groups the rate changes that are expected to occur in Q1 2015 and by year-end (Q4 2015):

- By April, SCE is forecasting that the bundled system average rate will increase by approximately 2% total compared to 2014 rates (the rates that went into effect in June 2014).
- By year-end 2015, SCE is projecting that the bundled system average rate will increase by approximately 1% total, again compared to 2014 rates.

Key Q1 Completed/Expected Rate Impact Factors

1. In effect Jan.1: A decrease due to a settlement agreement that determines the amount of San Onofre Nuclear Generating Station (SONGS)-related costs that can be recovered from ratepayers. Amounts already recovered from customers in excess of the settlement quantities will be returned to ratepayers.
2. Anticipated to take effect in April: An increase in the latest Energy Resource Recovery Account (ERRA), an annual regulatory proceeding created to pass through, with no mark-up, SCE's fuel and energy-related costs to bundled service customers.

Key Q4 Expected Rate Impact Factors

1. An expected increase due to SCE's filing of our next General Rate Case (GRC) Phase 1, for 2015 to 2018. In the GRC proceeding, SCE forecasts operations and maintenance expenses, plus capital expenditures, for a three-year period. The GRC request is fully transparent and rigorously reviewed prior to approval, with the final revenue increase allocation subject to regulatory authorization.
2. An anticipated decrease based on SCE's request to use the Nuclear Decommissioning Trust Access to draw down prior collections over the past 30 years for SONGS decommissioning.

Please keep in mind that individual customer rates will vary based on specific customer situations. For rate or related questions at any time, contact your account manager and visit www.sce.com for more details on our solutions to help you save energy, money, and the environment.

Educate Your Business: SCE Outage Schools

Are you going to have a maintenance (planned) outage? What do you need to do to prepare and keep your employees safe before, during, and after such an outage?

These and other important questions will be answered at one of SCE's free informational Outage School seminars now available for registration. We will provide you with valuable information regarding SCE's communication processes for maintenance and repair (unplanned) outages, infrastructure replacement projects, reliability, and more.

Sign up today for one of our one-hour sessions and don't miss out on this learning opportunity.

SCE's 2015 Outage School Seminars

Mark Your Calendars: West Coast Energy Management Congress

SCE will partner with the Association of Energy Engineers (AEE) as this year's host sponsor of the 33rd West Coast Energy Management Congress, on June 3-4, 2015, at the Long Beach Convention Center.

The event is the largest energy conference and technology expo held on the West Coast, facilitating knowledge on the latest developments in the energy field, new energy-efficient technologies, opportunities to catapult job growth, and innovative and cost-effective project implementation strategies.

Find out more and register to attend at www.energyevent.com.

SCE Recognizes Business/Community Leaders at Black History Month Celebrations

The Black History Month celebrations, the 13th annual in Irwindale and the 5th annual in Tulare, recognized energy efficiency customer champions, supplier diversity program partners, and community-based organizations we partner with in our mission to give back and incorporate diversity into everything we do.

“Our partnerships with our business and community leaders are the foundation of the service we provide to our customers. Southern California Edison’s annual Black History Month event is an opportunity to show our appreciation to them and to the communities we serve,” said Lisa Cagnolatti, vice president of SCE’s Business Customer Division and Customer Service Safety.

Energy Efficiency Participation Award Recipients:

- The **Compton Unified School District**, the **Inglewood Unified School District**, and the **Hanford Elementary School District**: The districts were honored for energy conservation at their respective school sites. Their participation in the School Energy Efficiency Program has saved them money on electricity consumption, providing the opportunity to reinvest the funds elsewhere.

Diverse Business Enterprise Award Recipients:

- **Moreno Valley Black Chamber of Commerce** and **Fresno Metro Black Chamber of Commerce**: These chambers are prime examples of organizations that SCE’s Supplier Diversity & Development seeks to partner with, as they provide a multitude of services to their communities, promote economic development, and improve opportunities for their members.

Community Partnership Award Recipients:

- **Youth Action Project**: This organization successfully assists youth and young adults in the Inland Empire develop the skills and habits needed to experience economic and social success.
- **Sequoia and Kings Canyon National Parks**: This year marks Sequoia’s 125th anniversary and Kings Canyon’s 75th anniversary. These national parks represent a combined two centuries of preserving and protecting giant sequoias and the Sierra wilderness for the benefit of the American people.

SCE Vice President Lisa Cagnolatti speaks to attendees at SCE’s Annual Black History Month event in Irwindale. The event celebrates energy efficiency customer champions, as well as supplier diversity and community-based organization partnerships.

Congratulations to all of the worthy honorees at SCE’s 2015 Black History Month celebrations, as we continue to work with our customers and community partners to become more powerful together.

If you are interested in attending future customer signature events – such as the Asian American Pacific Islander Heritage Month in May – including potential opportunities for recognition, contact your SCE account manager for more details.
