1. NEM serves customer load only.
2. Solicitations are the preferred procurement process for wholesale transactions. Bilateral negotiations are considered on a case by case basis and are typically conducted only when a compelling reason exists.
3. Not all California Energy Commission (CEC) biomass renewables qualify for the BioMAT program. Please refer to the SCE BioMAT website for details.
This matrix is for informational purposes only. It is intended as a brief guide to some of the programs and solicitations for power and related products that Southern California Edison Company (SCE) conducts or plans to conduct from time to time. This is not an offer or a promise by SCE, nor is it an agreement between SCE and any other party.
