Notes:

This matrix is for informational purposes only. It is intended as a brief guide to some of the programs and solicitations for power and related products that Southern California Edison Company (SCE) conducts or plans to conduct from time to time. This is not an offer or a promise by SCE, nor is it an agreement between SCE and any other party. Please refer to <https://www.sce.com/procurement/solicitations> for a list of current RFOs

- Solicitations are the preferred procurement process for wholesale transactions. Bilateral negotiations are considered on a case-by-case basis and are typically conducted only when a compelling reason exists.
- CPE will commence procurement in 2021 to procure Local RA for the 2023 RA compliance year

- Not all California Energy Commission (CEC) biomass renewables qualify for the BioMAT program. Link to BioMAT website: <https://sccbiomat.accionpower.com/biomat/home.asp>
- NEM serves customer load only.
- SCE has strong preference for Edison Electrical Institute (EEI) Enabling Agreements.
