

Renewable Electrical Generating Facilities (Generating Facility) that are sized larger than a customer's electrical requirements are not eligible for Net Energy Metering (NEM) as described in [Schedule NEM](#). A Generating Facility is considered to be sized larger than a customer's electrical requirements when the estimated annual production (in kWh) of the Generating Facility exceeds the customer's past 12 months of usage (in kWh).

When a Generating Facility appears to be oversized or where an account does not have 12 months of usage history, SCE allows customers to complete this form to certify that their Generating Facility is sized appropriately as required under SCE's NEM tariffs so that the NEM interconnection process can continue. Therefore, please check the appropriate box below and sign:

By signing below, I (Customer) certify that:

- I have compared the estimated annual production of my Generating Facility¹ with my most recent 12-month usage history². I am aware that my Generating Facility is expected to produce more energy than I used in the last 12 months. However, I affirm that I expect to increase my usage accordingly in the upcoming year. My Generating Facility was sized to meet this expected increase; **OR**
- Because I do not have 12 months of usage history, I have compared the estimated annual production of my Generating Facility against the standard 2 Watts/sq. ft. usage at www.sce.com/nem. Where the estimated annual production of my Generating Facility exceeds this calculated value, I affirm that I expect to increase my usage accordingly in the upcoming year. My Generating Facility was sized to meet this expected increase.

I understand that SCE reserves the right to further validate that my Generating Facility is sized in accordance with the NEM tariff.

Customer Acknowledgment

From Your SCE Bill, Please Provide:

Customer Name _____

Service Account Number (3-XX-XXXX-XX) _____

Print Name

Title, applicable if a Company

Signature

Date

Email Address

¹ The estimated solar annual production in kWh for sizing verification purposes is (CEC Nameplate kW) X 720 hrs./month X 12 months/year X 0.20 capacity factor = Annual kWh. For Wind and Fuel Cell technologies, see SCE NEM Handbook.

² You may obtain your most recent 12 months of usage history by calling SCE at 866-701-7868 or 800-655-4555, or by logging in online at www.sce.com, then going to MyAccount.
