

Home Area Network Device Registration Guide

To begin monitoring your home energy use, follow these steps to register your new Home Area Network (HAN) Device:

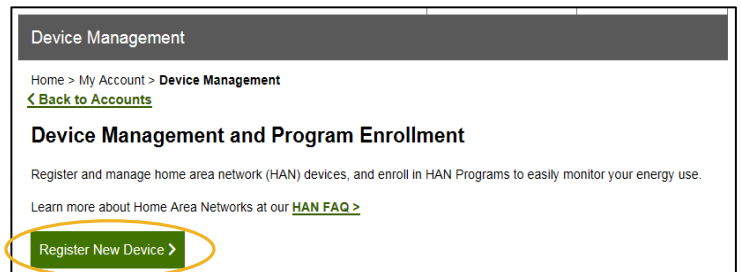

Step 1

Log into your My Account at sce.com and click on **Device Management**.

Step 2

On the Device Management screen click on **Register New Device**.

Step 3

From the Register New Device screen: Enter your **Device Number**.

The Device Number is also known as the MAC Address or EUI64 Address. It is usually found on the back of the device or the outside of the original packaging.

Then, enter **Install Code** and select **Device Type, Manufacturer, and Model****. Click **Next**.

A screenshot of the SCE "Register New Device" form. At the top, there is a warning icon and text: "To ensure there is proper communication between the device and the smart meter, it is recommended that the distance between the meter and the HAN device does not exceed 75 feet." Below this, there is a section titled "Enter Device Details" with the following fields: "Meter Number" (with a sub-label "Device Number"), "Install Code", "Device Type", "Manufacturer", and "Model". Each field has a question mark icon to its right. At the bottom of the form, there is a "Cancel x" button and a green "Next >" button, which is circled in yellow.

** If your device is not listed in the dropdown menu, you can manually type in the Manufacturer, and Model by selecting **Other** in the drop down.

Home Area Network Device Registration Guide

Step 4

Confirm that your device information was entered correctly and then click **Submit**.

Please confirm the information below before submitting.

Confirm Device Details

Meter Number	
Device Number	D8:D5:B9:12:34:56:78:90
Install Code	12:34:65:89:65:69:87:65
Device Type	DISPLAY
Manufacturer	AZTECH
Model	S0000600

Cancel ✕ Submit >

Step 5

Read the **Terms and Conditions** of Device Registration. If agreeable, please click the box *"I have read and agree"*. This will also activate the registration of your device.

Terms & Conditions [Print](#)

Home and Business Area Network Device Registration Terms and Conditions V1.0

If you are a customer of Southern California Edison Company (SCE) and you agree to the Terms and Conditions below, you may submit an online request or paper application to "pair" or "provision" (register) a Home or Business Area Network device to the SCE smart meter (meter):

1. SCE will make a reasonable effort to register your device to the SCE smart meter. However, SCE cannot guarantee successful registration of every device due to factors that may be beyond SCE's control, including, but not limited to, the distance between your device and the meter, incompatibility of the device with the meter, and physical or technical barriers between the device and the meter.
2. While SCE will open its meter for secure "registration" with your device - which security connection is consistent with Smart Energy Profile Standard 1.0/1.1 - SCE is not responsible for troubleshooting problems with the device itself that prevent or hinder connectivity.
3. SCE is not responsible for providing technical support for your home or business area network.

Cancel ✕ I have read and agree >

Step 6

Confirmation message will appear. Scroll to the bottom of the page then, select **Go to Device Management Page**.

Device Type	DISPLAY
Manufacturer	AZTECH
Model	S0000600

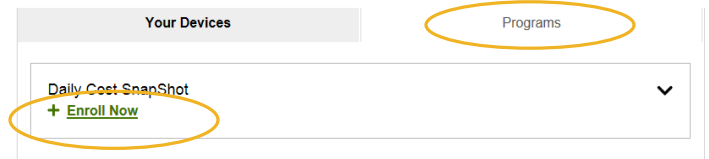

Go to Device Management Page

Home Area Network Device Registration Guide

Step 7

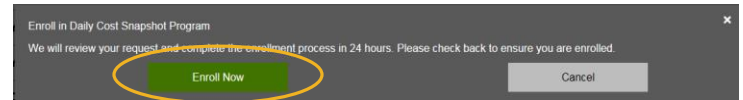

You should now be back to the Device Management.

To Enroll in **Daily Cost Snapshot** click the **Programs** tab and Click **Enroll Now**.

Step 8

The program enrollment confirmation message will appear. Click **Enroll Now**.

Congratulations! You've just completed the registration of your HAN Device. You are now ready to begin monitoring your home energy use. Thank you for your participation. If you have any questions or would like more information, please email [**hanquestions@sce.com**](mailto:hanquestions@sce.com).
